SoundScapes Blades wood-look wave designs in Vanilla Ash (WVA)

CAD/Revit® drawings at:  
armstrongceilings.com/cadrevit

Wall application

SoundScapes® Blades vertical panels achieve acoustical excellence in your space – with versatile ways to install on ceilings and walls.

## KEY SELECTION ATTRIBUTES

- new** • Now available in 4 Wood Looks
  - Mix standard designs, lengths, and depths for dynamic visuals
  - Sound absorption up to 2.05 NRC dependent on blade depth and spacing
  - Select products included in the FAST134 program – ready to ship in 4 weeks or less
- new** • Coordinated Prelude® suspension systems and Lyra® PB Wood Looks available
  - CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim
  - 20 vertical panel sizes and shapes
- Three installation options for maximum ceiling and wall design flexibility
    - From standard suspension system
    - From individual cable suspension
    - Direct-attach method using Axiom® wall molding
  - Mold and mildew-resistant surface
- Linear, upscale visual
  - Seismic-tested
  - Black embedded hanging clips
  - Custom panel options available
  - Add scrim to top edge as a premium option
  - ASTM E84 Class A Fire Performance

## FINISHES

### **new** Standard Wood-look Visuals

Brown Sugar Walnut (WBS)    Toffee Chestnut (WTC)    Vanilla Ash (WVA)    Honey Oak (WHO)

For premium and custom capabilities, contact ASQuote@armstrongceilings.com. Standard, coordinated Prelude® suspension

## ACOUSTIC INFORMATION

1.15 NRC with 6" O.C.  
Blade Spacing

0.80 NRC with 12" O.C.  
Blade Spacing

0.60 NRC with 18" O.C.  
Blade Spacing

0.50 NRC with 24" O.C.  
Blade Spacing

	NRC			
Panel Depth	6" O.C.	12" O.C.	18" O.C.	24" O.C.
5"	0.85	0.60	0.45	0.35
7-1/2"	1.00	0.75	0.60	0.50
10"	1.15	0.95	0.75	0.60
10-1/2"	1.20	1.00	0.80	0.65
16"	1.50	1.25	1.00	0.85
19-1/2"	1.65	1.35	1.15	1.00
22"	1.80	1.45	1.25	1.10
22-1/2"	1.85	1.50	1.30	1.15
28"	2.05	1.70	1.45	1.30

NOTE: Tested per ASTM C423 without infill panels. Spacing of blades, blade depth, and acoustical infill panels will impact acoustical performance. Contact TechLine for a custom reverberation time report at [techline@armstrongceilings.com](mailto:techline@armstrongceilings.com)

## THREE WAYS TO INSTALL

Direct to Grid Suspension System

Individual Suspension using Hanging Kit

Direct-attach Method using Axiom® Wall Molding

## CUSTOM PANEL DESIGN EXAMPLES

.125 Min Radius for all 90° Inside Corners

2.0 Min Radius Anywhere Other Than 90° Inside Corners

Direct-Attach with Axiom® Wall Molding	AXM34STR3 _ _	10' Straight Wall Molding	See note*
Individual Suspension Using Hanging Kit	6655	4-Point Hanging Kit	4 per bag
Accessories	ARBRKT	Adjustable Hanger Bracket	80
	6459BL	Black Rigid Attachment Clip	25
	STAC	Single Tee Adapter Clip	120
	7121	Angled Hanging Kit (60° maximum angle)	2
	625530	Extended Hanging Aircraft Cables (30')	4

♦ When specifying or ordering items with a color, add the 2- or 3-digit suffix to the end of the item number (e.g. 7301 B L)  
 \* 360° Paint Recommended; order by the piece

♦ When specifying or ordering items with a color, add the 2- or 3-digit suffix to the end of the item number (e.g. 7301 S H Y). 15/16" Prelude® XL® Suspension System available in coordinating colors. For the appropriate 3-digit color suffix, please visit [armstrongceilings.com/suspensionsystems](http://armstrongceilings.com/suspensionsystems)

### PHYSICAL DATA

**Material**  
 1-3/4" thick fiberglass with acoustically transparent membrane on face and sides.

**Surface Finish**  
 Acoustically transparent membrane. Top of panel is unfinished with black embedded hanging clips.

**Fire Performance**  
 SoundScapes® Blades panel material is ASTM E84 Class A: Flame Spread 25 or under and Smoke Developed 50 or less.

**CAN/ULC S102 surface burning characteristics.**  
 Flame Spread Rating 25 or less. Smoke Developed Classification 50 or less.

SoundScapes Blades panels, as with other architectural features located in the ceiling plane, may obstruct or skew the existing or planned fire sprinkler water distribution pattern, or possibly delay the activation of the fire sprinkler or fire detection system. Consult a fire protection engineer, NFPA 13, and local codes for guidance on the proper installation techniques where fire detection or suppression systems are present.

**FAST134 Program Considerations**  
 Size of Job Matters: Big jobs, over 2500 SF or 50 pieces for shapes/vertical elements will have longer lead times.

**Location Matters:** Transit time not included. We are ready to ship in 1 week on FAST1 items. However, transit to the states west of Wyoming may add time.

**Distributor Truck Schedule Matters:** We rely on distribution to help move products around the country. When speed matters, work with your local distributor to ensure FAST134 service.

**Stock vs Made-to-Order Matters:** FAST3 & FAST4 items are made-to-order and will ship direct to distributor. FAST1 (stocked items) will go through distribution and depend on distributor truck schedules.

**Design Support**  
 For custom design assistance contact ProjectWorks® Design Services or visit [armstrongceilings.com/projectworks](http://armstrongceilings.com/projectworks)

**Anti-Mold/Mildew**  
 Ceiling tiles with BioBlock® performance resist the growth of mold and mildew on the tile surface.

**Design Considerations**  
 SoundScapes Blades panels maintain a natural bow that may be noticeable when installed 2" or less apart. Deflection up to 1/8" has been documented in some cases.

Special care in installation and handling must be taken with wood-look blades to avoid surface damage. Be advised thickness on wood-look blades is 1/4" less than painted blades.

5" SoundScapes Blades can now be used on walls, but are not recommended for use in high-traffic or high-impact areas. For best results, install above 7" from floor level.

SoundScapes Blades panels can be ordered with scrim on top edge as a premium.

All wood-look blades are produced with wood grain parallel to the panel length. Wood-look visuals are designed to mimic slight color variations as seen in real wood.

**Seismic Restraint**  
 SoundScapes Blades are approved for all seismic areas when installed per the seismic guidelines in the Armstrong Ceilings installation instructions.

**Recommended Suspension Systems**  
 SoundScapes Blades panels are pre-assembled with metal hanging clips in the top of the panels. See Installation Instructions BPLA-297844 for installation details.

**Warranty**
