# AXIOM<sup>®</sup>

## Building Perimeter System

Complete wall-to-wall  
ceiling perimeter control

Use this pre-engineered extruded aluminum system around the perimeter of your acoustical or drywall ceiling to integrate air distribution, draperies, blinds, and shades, or changes in ceiling elevations – without any visible fasteners.

Choose between a seamless or more defined perimeter depending on your style and functional requirements. Both approaches are compatible with acoustic and drywall ceilings, and eliminate the installation time and risks associated with field fabricated drywall solutions.

Easy to specify... seismic components available... a 30-year limited warranty... and complete technical and installation support ensure the results you've come to expect from Armstrong.

SOLUTIONS

# A Perimeter Pockets

Two-sided or three-sided Perimeter Pockets\* allow ceiling suspension systems to easily integrate directly to the pockets to attach draperies, blinds, or shades (single or double).

\*Custom sizes and options available for your project needs

## Specify this Look (Division 9)

Item Number	Description
AXP355	3-Sided Perimeter Pocket, Acoustical/Drywall Transition
AX4SPLICE	Axiom® Splice Plate with Setscrews
AXPFG	Axiom Building Perimeter Foam Gasketing
AXTBC	Axiom T-Bar Connection Clip

Also available for drywall installations

## Popular Pocket Configurations

Two-sided perimeter pocket with acoustical integration

Made-to-order double shade pockets to meet your project requirements. Optional air return venting available.

AXP3552 three-sided pocket with acoustical-to-acoustical transition allows a continuous integrated ceiling pocket

# B

# Pocket Extensions

Perimeter Pockets connect to extension pieces\* for deeper pockets or to accommodate ceiling elevation changes of 4", 6", or 8". Extend to 10" or 12" by adding an additional 4" extension.

\*Custom sizes and options available for your project needs

## Specify this Look (Division 9)

Item Number	Description
AXP355C	3-Sided Perimeter Pocket, Connection to Extension/Face Plate Piece
AXPEP8	Axiom 8" Perimeter Extension
AX4SPLICE	Axiom Splice Plate with Setscrews
AXPFG	Axiom Building Perimeter Foam Gasketing
AXTBC	Axiom T-Bar Connection Clip
AXPSPLINE	Axiom Interlocking Spline

All Axiom® Building Perimeter System components integrate perfectly with Armstrong's acoustical and drywall suspension systems, ceiling panels, and TechZone™ Ceiling Systems.

## Popular Extension Configurations

Two-sided or three-sided pockets for connection to Extension Piece

Optional 4", 6", or 8" Extension Piece

Add an optional 4" Extension with Hook for 10" or 12" depths

## Color Selection

Due to printing limitations, shade may vary from actual product.

# C Face Plates

Integrate face plates\* with a Perimeter Pocket for air distribution. Face plates are compatible with acoustical and drywall ceiling transitions and can be slotted to meet your project needs.

\*Custom sizes and options available for your project needs

## Specify this Look (Division 9)

Item Number	Description
AXP355C	3-Sided Perimeter Pocket, Connection to Extension/Face Plate Piece
AXPDF7SLA	Axiom® Perimeter Face Plate, 2-Slot Pattern
AX4SPLICE	Axiom Splice Plate with Setscrews
AXPFG	Axiom Building Perimeter Foam Gasketing
AXPCC2	Axiom 2" Building Perimeter Closure Clip (optional)
AXTBC	Axiom T-Bar Connection Clip
AXPSPLINE	Axiom Interlocking Spline
AXDWT	Drywall Taping Flange

## Popular Face Plate Configurations

6

4" field face plate (Item AXFFP4) offers acoustical-to-acoustical transitions, diffuser, or lighting landing strip

Two-sided perimeter with drywall connection, 7" face plate, and Axiom drywall trim

# D

# Seismic Solution

With the Axiom® Building Perimeter System\* seismic perimeter pockets, extensions, and face plates, you can meet your project's complete window-to-wall seismic requirements.

\*Custom sizes and options available for your project needs

## Specify this Look (Division 9)

Item Number	Description
AXP355S	3-Sided Seismic Perimeter Pocket, Acoustical/Drywall Transition
AX4SPLICE	Axiom Splice Plate with Setscrews
AXPFG	Axiom Building Perimeter Foam Gasketing
AXPCC2	Axiom 2" Building Perimeter Closure Clip
BERCAXT	Axiom Beam End Retaining Clip

Seismic pockets, extensions, and face plates have 7/8" flanges and require attaching the ceiling suspension with BERCAXT Beam End Retaining Clips.

BERCAXT can be used on attached or unattached walls

## Complete Seismic Configurations

## Color Selection

Due to printing limitations, shade may vary from actual product.

# Custom Options

Axiom® customer service is available to help you create custom pockets, slot designs, perforations, and cutouts to meet your project needs.

For more information or help with your Axiom Custom order, call Axiom Customer Service.

# Choose the system that fits your project

## Easy to Specify

1  
2  
3  
4  
5  
6

### 6 Easy Steps

**1 Choose the look that fits your style/functional requirements**

**2 Choose 2-sided or 3-sided Perimeter Pockets**

**3 Choose which Perimeter Pocket transition is required**

**4 Choose Extension pieces or Face Plate options**

**5 Choose a Closure Clip**

**6 Choose a coordinating Armstrong acoustical-to-drywall suspension system and panels**

<b>A</b>	Use Perimeter Pockets for a clean, seamless look	<b>B</b>	Add Extensions for smooth changes in ceiling elevations	<b>C</b>	Add Face Plates for air distribution or return, or a more defined edge	<b>D</b>	Use seismic components for projects requiring seismic solutions
	2-sided pockets when building condition forms third side of pocket. 3-sided pocket to form complete pocket against building curtain. Choose a double roller shade pocket to meet your project requirements.						
	Use Perimeter Pockets for Acoustical/Drywall transitions		Use Perimeter Pockets with Extension Face Plate pieces			Use Seismic Pockets for look A (use pockets listed for look B & C)	
	N/A		Use the Extension piece with the desired 4", 6", or 8" length (Extend to 10" or 12" by adding a 4" extension with hook – AXPEP4H)			Use a Slotted Face Plate for air distribution (Unslotted available)	
	N/A		N/A		Use 2" or 3" Closure Clips (optional) based on aesthetic appeal		
	Use Prelude®, Suprafine® XL®, Silhouette® XL, Interlude®, or Sonata® suspension systems. Use Optima® Square Tegular, Ultima® Square Tegular, or Ultima Beveled Tegular ceiling panels.
