using standard components – eliminating the hassle, cost,
and risk associated with custom installations. Panel options offer
great spot acoustics, too. Formations cloud kits make installing
clouds quick and easy! And now, with Formations™ Custom Cloud
Kits, you can build your custom cloud any way you want it.

Formations™ Clouds with ULTIMA® Tegular
panels and Axiom® 4" Classic trim ▶

For Every Space
With a wide variety of options – including configurations, panels, sizes, trim color, and applications – the possibilities are endless.

Great Acoustics
Formations cloud kits with acoustical panels provide greater sound absorption than a continuous ceiling of the same area.

Fewer Wires
Kits come complete with our proven StrongBack™ carrying channel, which eliminates 40% of the cables – minimizing visible wires.

Faster Installation
Aircraft cable allows for easy floor level installation – kits assemble and install up to 50% faster than stick built clouds.
