

Experience, Above All™

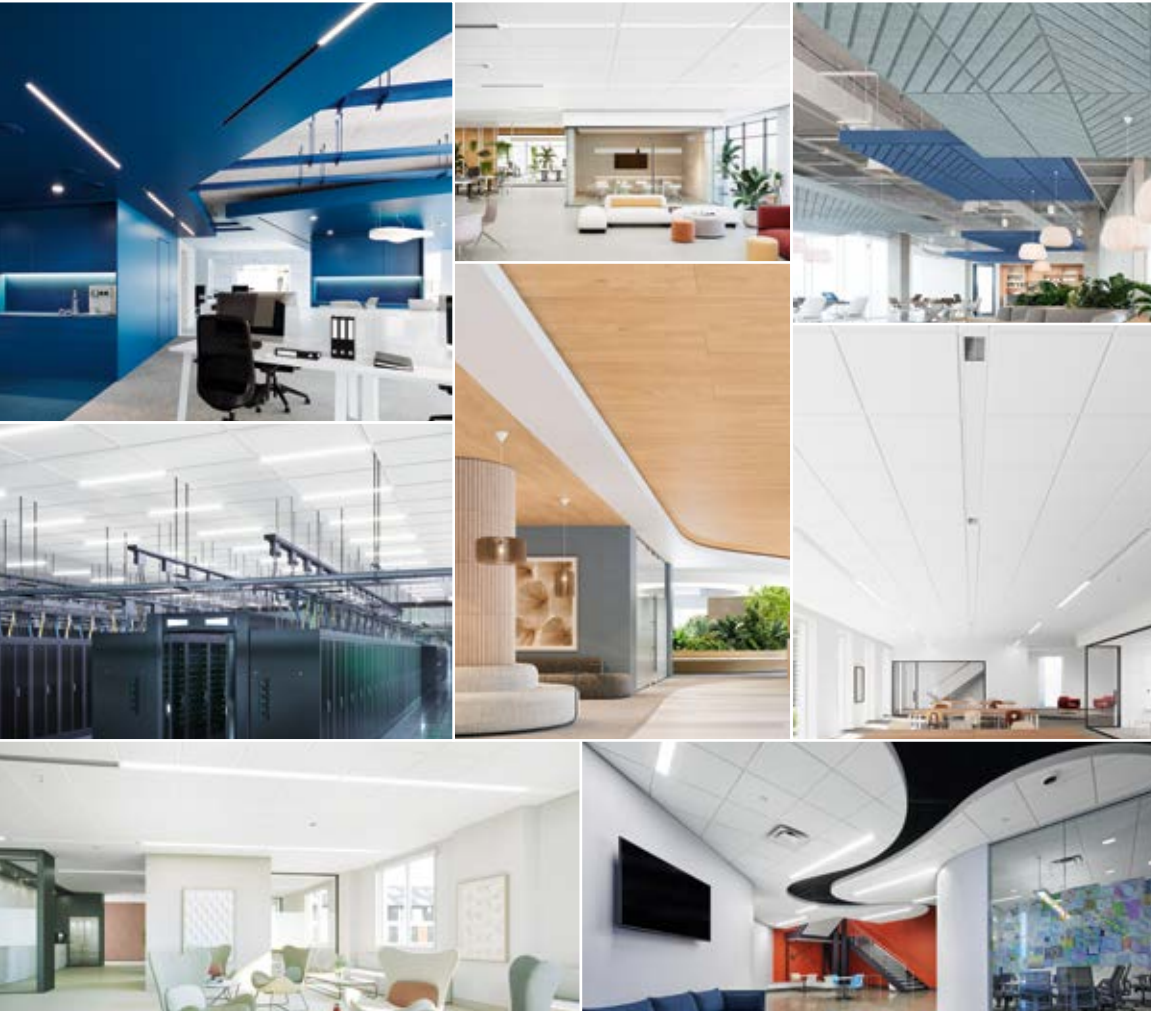

Fall 2023

What's New

Armstrong®
World Industries

Experience, Above All™

...a promise that goes beyond our products. It addresses innovation, design-forward thinking, service orientation, and our commitment to quality.

It also includes our commitment to healthy and circular products, responsible sourcing and transparency, minimizing waste and pollution, and supporting recycling.

Here's a look at What's New for Fall 2023...

Here's what's new for Fall.

PROJECTWORKS® Design & Pre-Construction Service

Elevate Your Experience.

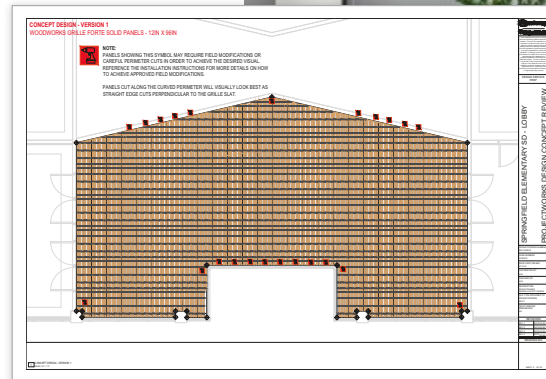

Achieve a strong and fast design outcome with our complimentary design service. Through the power of collaboration, we can deliver:

- Detailed drawings to improve project coordination
- Materials budget and specification guidance
- Optimization capabilities to reduce material waste
-  Full-scale 3D Revit® models to generate renderings and architectural walkthroughs

Our streamlined set of deliverables reduces unnecessary challenges and helps keep projects on target. Let us help simplify your next project today!

Revit models can be imported into building models and contain detailed panel and suspension data to accelerate the design process.

Drawings include panel, suspension, and hardware schedules to help guide construction documents.

SINCERUS™ Linear UV Air Purification System

Clean Air Meets Elegant Design

- **99% Efficacy Rate** – Neutralizes 99.9% of bacteria, viruses, and fungi*
- **UV-C & Filter Technology** – Contained within sealed chamber safe for use in occupied spaces
- **Linear Design** – Integrated design coordinates with linear ceilings and other fixtures

**24/7
DEFEND™**
Solutions for Healthier,
Safer Spaces

THE ARMSTRONG 24/7 DEFEND™ PRODUCTS:

- Offer long-term solutions to purify the air from the top down
- Meets recommendations from ASHRAE, CDC and EPA for cleaner, healthier air

* Based on third-party testing available on request

Ceilings Recycling Program

Since 1999, the nation's first ceilings recycling program has diverted over 200 million square feet of old mineral fiber ceiling materials from going to the landfill.

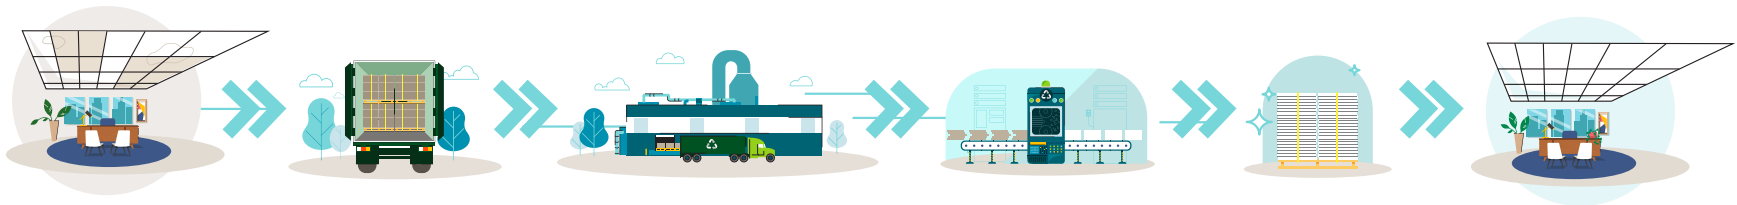

MINERAL FIBER CEILINGS

- Provides an efficient solution to reduce construction waste and embodied carbon on commercial renovation projects
- Ceilings become the foundation for the next generation of ceilings with higher post-consumer recycled content
- Make the Armstrong Ceilings Recycling Program part of your next commercial renovation or tenant improvement project and let's create healthy, sustainable spaces together
- Call the Armstrong Ceilings Recycling Center at 877 276-7876 (option 4) to approve material and for assistance in facilitating recycling.

METAL CEILINGS, SUSPENSION, AND TRIM

Search for a local resource to recycle, reuse, or donate your old metal ceilings, suspension systems, or trim to divert these materials from landfills. Earth911.com maintains one of North America's most extensive recycling databases. Simply enter in the material you are trying to recycle along with your zip code and click search to find a resource near you.

TOTAL ACOUSTICS® ceiling panels

The ideal combination of sound absorption and sound blocking.

With three levels of sound absorption and high sound-blocking performance, Total Acoustics ceiling panels make it easy to choose the right ceiling for every space, every time.

- **BEST: NRC 0.80+ and CAC 35+**
- **BETTER: NRC 0.70-0.75 and CAC 35+**
- **GOOD: NRC 0.60-0.65 and CAC 35+**

Request a complimentary custom acoustical report for your project needs and get the acoustics right in any space. Our TechLine experts can help you get the right sound control for your design and your budget.

Ultima High NRC Tegular panels

Pueblo High NRC Tegular panels

PUEBLO™ High NRC ceiling panels

Smooth-texture mineral fiber acoustical panel with excellent sound absorption and good sound blocking for use in a wide variety of open-plan spaces.

- Available in two sizes, 24" × 24" and 24" × 48", on 15/16" Square Lay-in, 15/16" Beveled Tegular, and 9/16" Beveled Tegular edges
- Good combination of sound absorption and sound blocking; NRC 0.90 and CAC 30
- Part of the Sustain® portfolio and meets the most stringent industry sustainability compliance standards today
- Product can be recycled through the Armstrong Ceilings Recycling Program
- 30-Year Limited System Warranty against visible sag, mold, and mildew

MetalWorks Lay-in panels for DynaMax Plus in Whitelume

DYNAMAX[®] PLUS Structural Grid System

Now with MetalWorks[™] Lay-In Panel Options.

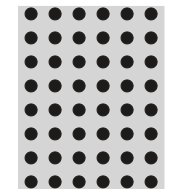

- New perimeter hold-down clip provides an expanded portfolio of options when designing data centers and structural ceiling applications
- Offers a sleek, white metallic finish that is easy to clean
- Includes acoustical benefits; NRC up to 0.85 with infill panels
- Part of the Sustain[™] portfolio and meets the most stringent industry sustainability compliance standards today
- Provides additional options when bidding data centers and structural applications
