

## Armstrong Ceilings keeps its customers in suspension

**A new suspension systems solutions catalogue has been published by Armstrong Ceilings.**

A [comprehensive guide to its peerless portfolio of suspension systems](#) has been launched by Armstrong Ceilings.

The 54-page A4 product selector catalogue provides specifiers, installers and supply chain partners with a huge range of standard and designer solutions for all types of spaces in the widest choice of designs, colours and materials to fulfill the requirements of modern building concepts.

Designed to not only coordinate with the complete portfolio of Armstrong ceiling products, whether mineral, metal, wood or custom solutions, they also integrate with all types of building service elements such as lighting and HVAC.

There are systems for metal ceilings, floating ceilings, corridors, the suspension of plasterboard ceilings (Armstrong's fast-track precision-engineered Drywall Grid System - DGS), perimeter detailing via the AXIOM range of Blind Boxes, angles, channels, trims and bulkheads, and a wide range of accessories.

The portfolio also includes an extensive range of performance grids offering specific solutions for more demanding applications such as Clean Rooms and seismic installations.

CE Marked, resistant to fire, recyclable and available with warranties up to 30 years when installed with Armstrong ceilings, the systems are supported by CAD and BIM files, the latter via the National BIM Library.
