Your Ideas Take Shape for Walls & Ceilings

CastWorks™ architectural forms mold your ideas into reality. Custom patterns can be developed to create one show-stopping feature or hundreds of identical architectural components for your space.

GRG custom ceiling panels and column covers;
Healthcare Clinic Cafeteria, Duluth, MN

GRG custom wall panels; Armstrong World Industries
Lobby, Lancaster, PA

Ceilings

Let your imagination run wild and add elements that inspire awe.

The versatility of CastWorks™ materials help you create works of art such as curved light coves, vaulted ceilings, domes, patterned or coffered ceilings, decorative beams, beautiful historical restoration or replication, and other custom ceiling applications.

Walls

Forgo the everyday and give your space a custom focal point with dramatic dimension and detail using custom cast wall panels, niches, and pediments. Make it functional, too, with perforated wall panels which can be an aesthetic and sound-absorptive solution.

GRG column covers, moldings,
and ornamental details;
St. James Building,
Jacksonville, FL;
Saxelbye, Powell,
Roberts & Ponder, Inc.

Column Covers

Impress with CastWorks™ column covers that add beauty to your structural columns. Materials can be customized to most shapes, sizes, or finishes to give your columns just the right look to fit the architectural style of the space. Standard column covers offered include cylindrical, recessed, octagonal, conical, elliptical, Greek Doric, Tuscan, square, and fluted, plus capitals and bases.

Moldings

CastWorks moldings can be curved or straight, are lightweight, durable, and perfect for interior and exterior applications. Consider products such as cornices, trims, and light coves as the perfect finishing touch. Moldings offer endless options that elevate your overall design by seamlessly blending into your ceiling and walls, or providing unexpected contrast.

Ornamental Details

CastWorks materials can be used for endless types of ornamental details. Whether replicating original gargoyles or adding the perfect cupola, the adaptability of CastWorks architectural forms make it possible. Create delicate adornments including corbels, brackets, and finials, or magnificent domes and soaring steeples.

GRG

Add Another Dimension

Give your one-of-a-kind space a dimension like never before. Glass Fiber Reinforced Gypsum (GRG) is a sustainable, lightweight interior material that can be made into just about any shape imaginable. It's especially suitable for CastWorks™ Metaphors® ceiling panels, wall panels, coffers, column covers, domes, light coves, vaults, access panels, and moldings.

GRG Custom Wall Panels; US Census Bureau

Check out the EPD for CastWorks GRG products, third party-certified by UL Environment as conforming to the requirements of ISO 14025.

GRG

Seamless Dimension

Elevate your interiors with the these six Castworks™ designer profiles: Arches, Channels, Chevrons, Contours, Flutes, and Grooves – crafted to deliver seamless visual impact across large spaces and feature walls.

GRG custom perforated wall panels; UC Riverside School of Medicine, Riverside, CA; Hensel Phelps

GRG Double-Duty Performance

When sound control is a necessity, CastWorks™ custom-sized and custom-shaped panels bring aesthetics and acoustics to your design. Reflect and diffuse sound or absorb it using a combination of perforated CastWorks panels and FeltWorks® acoustical panels for up to 0.65 NRC.

- Weighs only 2-3 lbs. per square foot
- Easy to install
- Low maintenance
- Perforated GRG panels that are at least 21% open achieve NRC of 0.65 when installed with FeltWorks acoustical panels
- Sets fast; can reduce construction schedules
- Durable
- Interior use

GRG randomly perforated wall panels
The Cooper Union, New York, NY; Morphosis

GRG High Design

The sky's the limit when it comes to applying texture and color with nearly limitless shape options.

- Cast into any shape or compound curve
- Replicate the look of natural materials at a lower cost
- Use for daylighting or to conceal lighting elements
- Can be field painted to achieve any desired color or texture

CastWorks Metaphors Parquet design ceiling panels in Walnut

GRG custom ceiling application; Loews Hotel, Chicago, IL;
Simone Deary Design Group

GRG coffers and cornices;
The Rockwell Building,
Cleveland, OH; Sandvick
Architects and Vocon

GRG Making the Old New Again

When it comes to restoration and renovation, CastWorks™ GRG can easily replicate existing ceiling coffers and other architectural elements. With the ability to coordinate custom colors, the finished look will be seamless.

GRG coffers and cornices; The Rockwell Building, Cleveland, OH;
Sandvick Architects and Vocon

Interior Molded
Stone column
covers; La Reina,
The Villages, FL;
Christoff Krietemeyer
& Associates

Interior Molded Stone Stand Firm

Recreate the look of natural stone with CastWorks™ Interior Molded Stone composite. Ideal for column covers and cornices, trims and pediments, surrounds and signage, plus many other options.

Interior Molded Stone wall panels;
Kaleida Health, Buffalo, NY; Cannon Design

Interior Molded Stone column covers; Oglethorpe Mall, Savannah, GA;
Thompson, Ventulett, Stainback & Associates

Interior Molded Stone Creative Resilience

With unmatched flexibility, CastWorks™ Interior Molded Stone offers unlimited possibilities for interior castings, large or small, to complement your design.

- Cast into any shape or compound curve
- Weighs only 2-5 lbs. per square foot
- Durable
- Offers unlimited design possibilities
- 12 standard colors and custom colors available
- Interior use

Interior Molded Stone cladding, headers,
base, and door surround; Royal Pacific Resort,
Orlando, FL; Fugleberg Koch Architects

GFRC and GRG column covers, cornices, and various castings; UVA McIntire School of Commerce, Charlottesville, VA; Hartman-Cox Associates

GFRC Leading Attraction

Glass Fiber Reinforced Concrete (GFRC) is lightweight and ideal for architectural details – from friezes and finials to pediments and rainscreens. Typically an exterior product, GFRC can be used for interior applications, too.

GFRC column covers and cornices, and FRP signage and scrolls; Star Theatres, Various U.S. locations; FTC&H

GFRC Higher Standards

CastWorks™ GFRC is durable and low maintenance, ensuring your building's facade will continue to impress over time.

- Cast into any shape or compound curve
- Weighs only 6-8 lbs. per square foot (castings may vary)
- Low maintenance
- 14 standard colors, paint-grade finish, and custom colors available
- Engineered to reduce installation time and cost
- Exterior and interior use

GFRC column covers and pilaster; Clay County Courthouse, Green Cove Springs, FL; Spillis Candela and Smith-McCrary Architects, Inc.

GFRC rainscreen panels; The Cooper Union,
New York, NY; Morphosis

FRP themed column covers; St. Helena Elementary School, Beaufort, SC; Goforth Brown & Associates

FRP Lasting Landmarks

Glass Fiber Reinforced Polyester Resin (FRP) will withstand the test of time. FRP is perfect for traditional multi-tiered cornices, column covers, and cupolas in one lift/part. Ideal for applications in high traffic areas such as shopping centers, convention centers, churches, and airports.

- Cast into any shape or compound curve
- Weighs only 2-3 lbs. per square foot
- Exterior and interior use
- Easy to install
- Low maintenance; retains shape and beauty
- Versatile finishes, colors, and textures

FRP custom panels; 847 West Jackson, Chicago, IL;
Wiss, Janney, Elstner Associates, Inc.

Custom Colors
Available

GRG Paint Grade
Unfinished for Field Painting

Perfect Finish

CastWorks™ GRG can be coated to achieve any desired custom color and texture. Interior Molded Stone and GFRC products come in standard colors (shown at right) and custom colors. Interior Molded Stone castings are sealed with a clear satin for a durable finish. FRP castings can be painted in any color or coordinated to your desired custom color.
