SUSTAINABILITY

Green ceiling options for every space

The image shows a modern, circular interior space, likely a cafeteria or a community center. The ceiling is a large, circular wooden structure with a radial pattern of wooden slats. A smaller, concentric circular wooden structure is suspended from the ceiling, with four cylindrical pendant lights hanging from it. The walls are a dark grey color, and the word "Recycle" is written in large, white, sans-serif capital letters on the left wall. To the right, there is a kitchen area with wooden cabinets, a white countertop, and a sink. A coffee machine and other kitchen equipment are visible on the counter. In the foreground, there is a round wooden table with several wooden chairs that have metal frames. The floor is a light-colored, polished material. The overall atmosphere is clean, modern, and functional.

BUDGET

Modularization

- Soffits
- Transitions
- Coves
- Perimeters

Savings Calculator

FastSize

Factory-finished ceiling panels and suspension systems are available in one-carton minimums, shipped fast!

FASTSIZE panels and suspension systems are perfect for designs where building modules are not standard or with narrow linear fixtures or diffusers. These installations require cuts for Tegular or Vector ceiling panels and custom routed suspension system around lights and diffusers.

Shop Drawing Service

- Reduce risk and save time by using our free shop drawing service

▲ MetalWorks™ Torsion Spring exterior panels

INNOVATION

- Investment in NPD with twice annual product launches
- On-the-job contractor trials
- Seismic lab testing

▼ SoundScapes® Shapes 48" x 48", 48" x 72", 48" x 96" panels in White; Twitter Offices, San Francisco, CA

▼ Serpentina® Waves™ panels, Champagne Gold and Wolf (color achieved with lighting effects); Destiny USA Mall, Syracuse, NY

SAFETY

- Modularization = Fewer installers = Greater Social Distancing
- 4=12
- 50% faster
- Shoot wire to deck from the ground

▲ Drywall Grid System, Prelude® 15/16" suspension system, Dune™ Lay-in panels, and custom curved 4" and 6" Axiom® Classic trim; NOAA Offices, Tuscaloosa, AL

SCHEDULE

- Modular, plug + play solutions = extra manpower on the job
- Coordination with framing, ceiling, and MEP reduces plenum congestion
- Save time on soffits and transitions
- Schedule plan review with ISS

▲ Prelude® XL Max® 15/16" suspension system with Ultima® ceiling panels

▼ SoundScapes® Shapes 48" x 48", 48" x 72", 48" x 96" panels in White; Twitter Offices, San Francisco, CA
