Imagine: A ceiling so completely fresh and unusual it seems practically reinvented. DESIGNFlex™ Ceiling Systems mean a shift from traditional 2’ x 2’ and 2’ x 4’ modules to new design patterns using triangles, parallelograms, and trapezoids plus new sizes in squares and rectangles. Classic white, subtle pops of color, or bold color palettes can personalize your space. And choose from a range of materials – from mineral fiber and fiberglass to wood and metal.

DESIGNFlex™ panels offer a wide variety of panel materials, shapes, sizes, and colors to create hundreds of palettes and dozens of patterns – all made-to-order and ready to ship in just 3 weeks and slightly longer for metal and wood panels.

Only from Armstrong Ceiling Solutions.

Make it Yours!

In this room, the designer used pattern SH-17 in white with two subtle stripes of color to complement the Tectum® wall art.

Online, this same pattern is shown in full color, greyscale, stripes of color, arrow-like patterns, and with 3D shapes.

Choose a pattern from the gallery and use a pre-designed color palette or create your own. For more details, visit the pattern gallery online: armstrongceilings.com/patterngallery
DESIGNFlex™ Shapes Pattern 17 ceiling panels; Tectum® Panel Art wall panels; Axis shaped lighting fixtures
DESIGNFlex™ Shapes
