Sustainability Meets Performance

DynaMax® Structural Aluminum Suspension Systems

Armstrong is committed to responsible sourcing and to providing transparency in our products. Below are some details on the environmental responsibility and sustainability of DynaMax® Structural Grid Systems.

Part of the Sustain® portfolio of products, which contributes to better spaces.

Here's how:

- · Free of Red List chemicals per Living Building Challenge® 4.0
- · Have Health Product Declarations (HPDs) which tell you what's in the product
- · Have Environmental Product Declarations (EPDs) which tell you the impact of the products
- · Have Declare® labels informative "nutrition-label"
- · Meets California Department of Public Health (CDPH) low emissions standards

- · Made from 50% recycled aluminum
- · 30-Year Product Life Expectancy
- · End-of-Life Options salvageable and reusable in its entirety
- · 100% recyclable
- · Ceiling panels for DynaMax structural grid systems -DataZone[™] and Ultima[®] AirAssure[®] are all 100% recyclable, and are salvageable and reusable in their entirety
- The Armstrong Ceilings Recycling Program offers a worry-free way for businesses to recycle ceiling material with its closed-loop program
