Elevate Every Exterior

Make the *Bold* Buildable

Bold ideas become buildable with Armstrong® exterior metal solutions, spanning cladding, soffits, canopies, balconies, and screens. Foundational elements from MetalWorks™ and Parallel™ establish clean, cohesive aesthetics, while design-forward systems from BŌK Modern® add striking visual impact. Artistic focal points from Arktura® and Zahner® bring perforated panels, custom-cut designs, and textured façades to life. One portfolio covers nearly every exterior application, delivering modern style, enduring performance, and trusted expertise.

The Brick & The Machine, Culver City, CA

Abramson Architects

MetalWorks™
Exterior Soffits

MetalWorks™ exterior soffits bring warmth and precision to the underside of the building envelope, delivering clean, modern lines engineered for exterior use. Class A fire-rated and wind-tested, these linear plank systems support acoustical performance and simple lighting integration. For projects requiring continuity between interior and exterior finishes, MetalWorks™ connects the design story seamlessly from inside to out.

MetalWorks™ Linear – Classics

Parallel™ **Cladding**

Parallel™ aluminum cladding and batten systems deliver clean, cohesive façade aesthetics with the added benefit of wood-look sublimated finishes that resist warping, cracking, and refinishing. Interlocking, modular profiles simplify installation while ensuring a unified exterior appearance across the full building envelope. For projects requiring design continuity from façade to soffit, aluminum cladding extends a consistent aesthetic language throughout.

Parc Mosaic, Boulder, CO

BŌK Modern®
Rainscreens

BŌK Modern® rainscreens combine artistic expression with functional performance, transforming a façade into a focal point through laser-cut, bas-relief, or solid single-skin panels. Direct-mount installation eliminates secondary structural framing, while multiple metal types and gauges, including Cor-Ten steel, ensure lasting durability. The result is a façade that shapes light, shadow, and privacy in equal measure.

Blue Oak Landing, Vallejo, CA

David Baker Architects

Arktura®
Façades

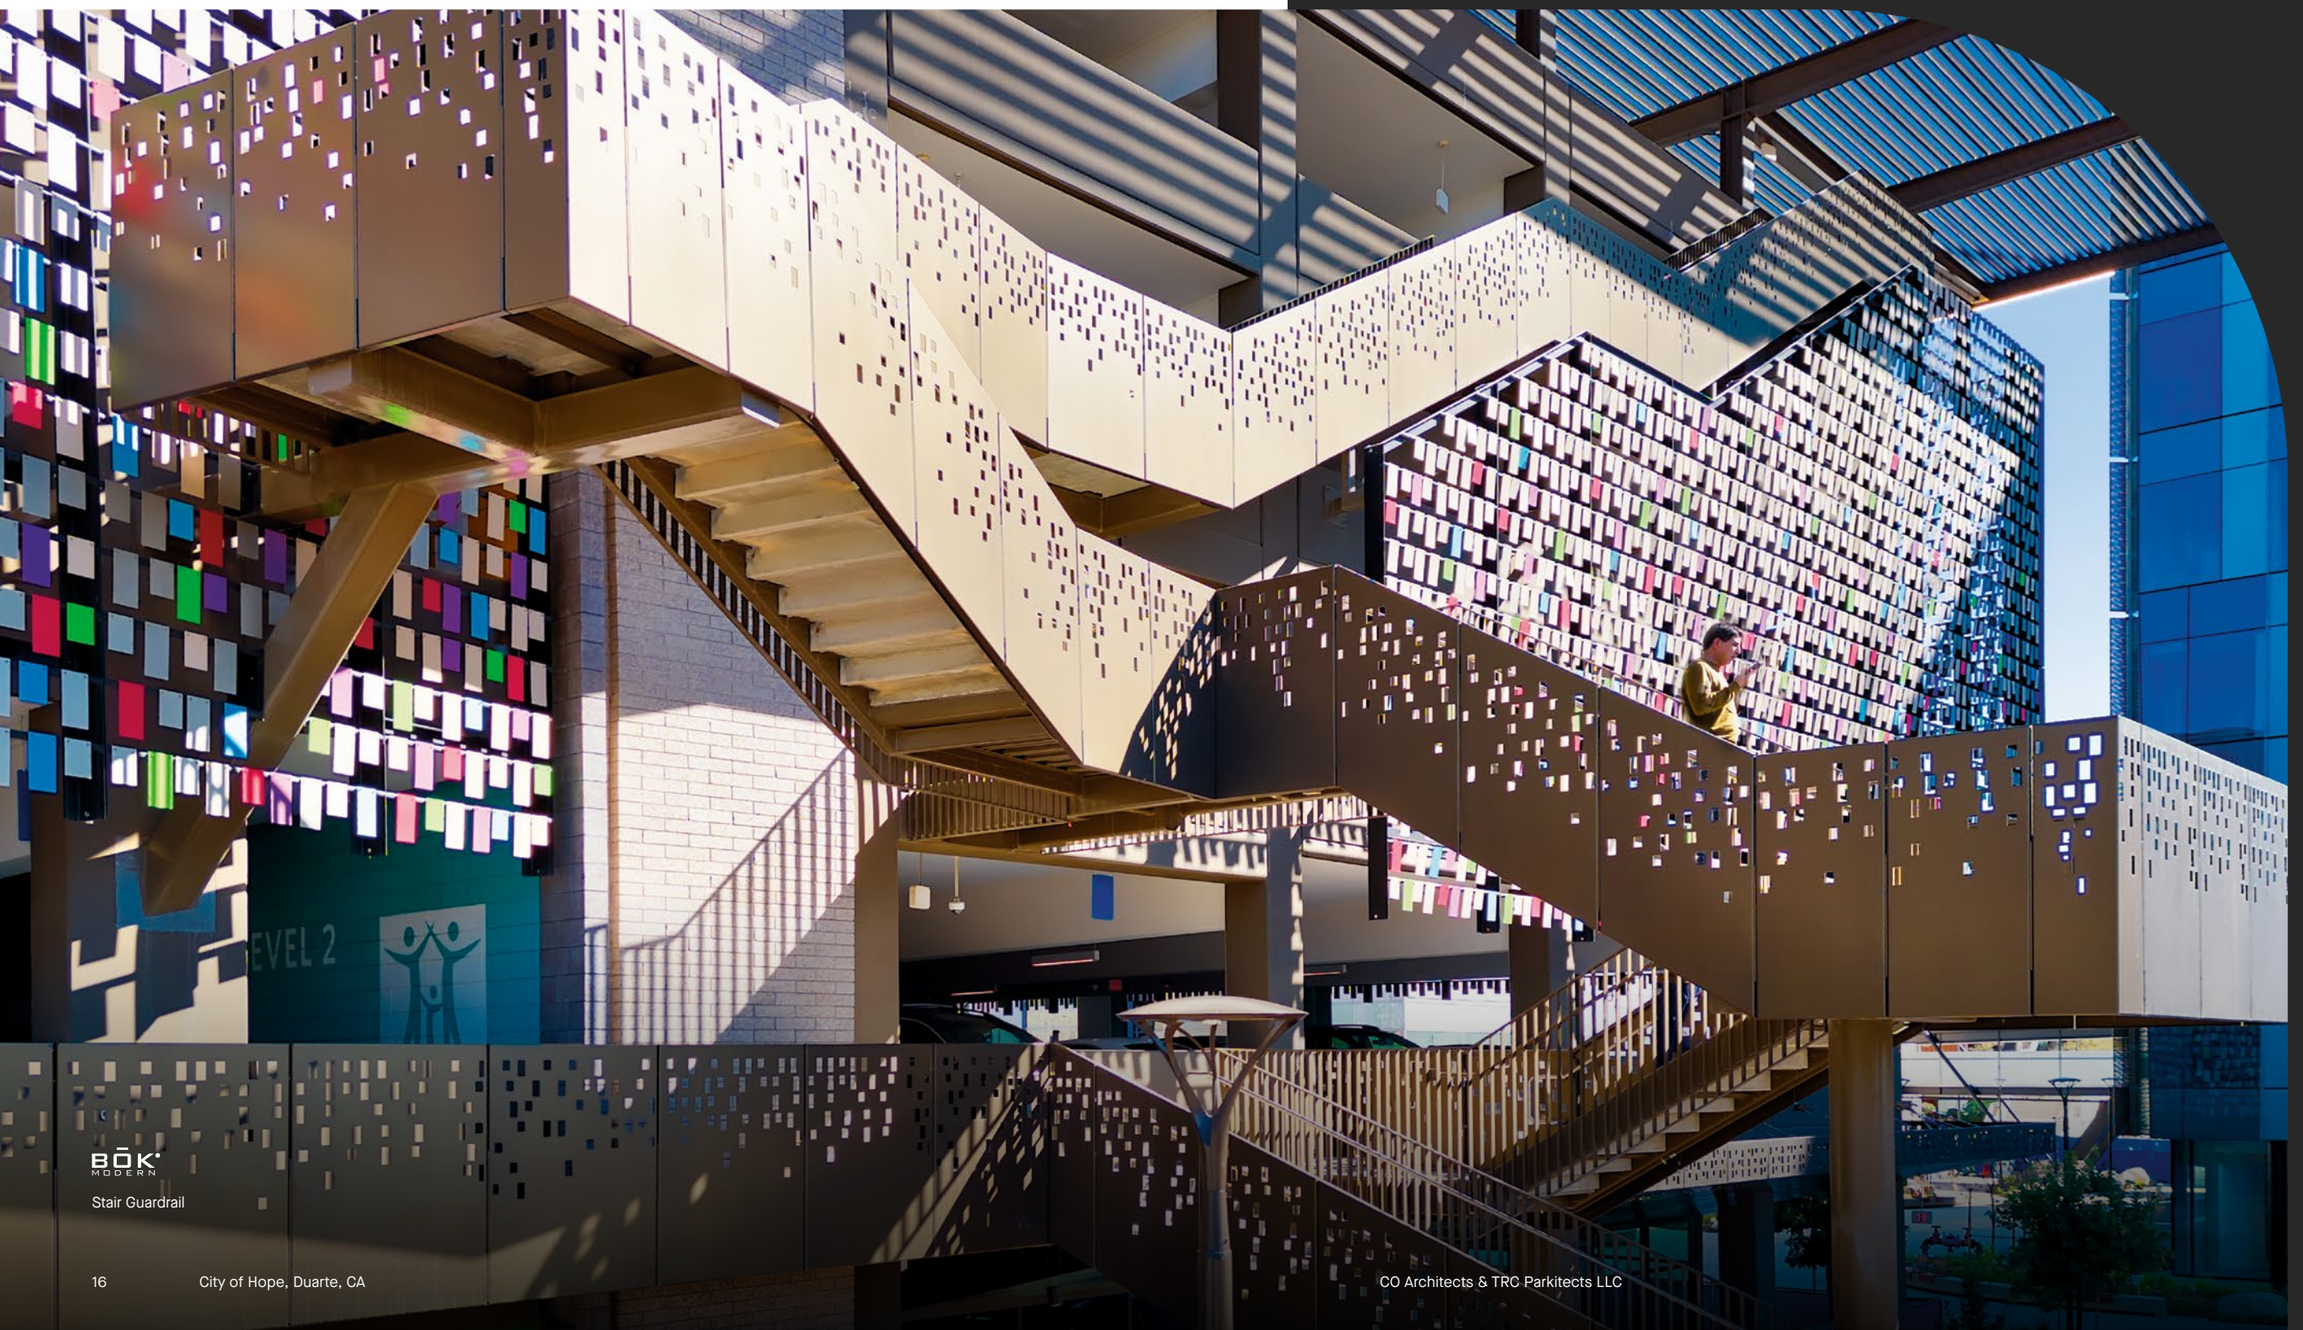

Arktura® brings high-concept, geometric façades to life through powder-coated aluminum panels with customizable perforation styles. Scalable modular panels suit a range of façade and cladding applications, with options to integrate lighting and backers for added depth. Perforation styles include Cumula, Frequency, Sky, and Solid.

Safety Solved Before It Reaches the Jobsite

Barriers & Safety

BŌK MODERN

Stair Guardrail

City of Hope, Duarte, CA

BŌK Modern®
Bolt-On Balconies

BŌK Modern® Bolt-On Balconies are pre-engineered for faster, simpler installation, requiring no secondary structure, hangers, or welding. Available in aluminum and Cor-Ten steel, laser-cut designs carry a signature aesthetic consistently across the building. Ambitious design and practical buildability coexist in a single, installation-ready solution.

BŌK MODERN

Bolt-On Balconies

Shade & Landscape

Shade Structures that Endure the Elements

PARALLEL

Pergola

Westside Media Center, West Los Angeles, CA

Parallel™ **Pergolas**

Parallel™ pergolas deliver Class A fire-rated, interlocking modular systems with wood-look aesthetics that resist warping and cracking. Cohesive design extends naturally across cladding and shade applications for a unified exterior appearance.

PARALLEL

Pergola

Limelight Hotel, Boulder, CO

BŌK Modern®
Sunshades

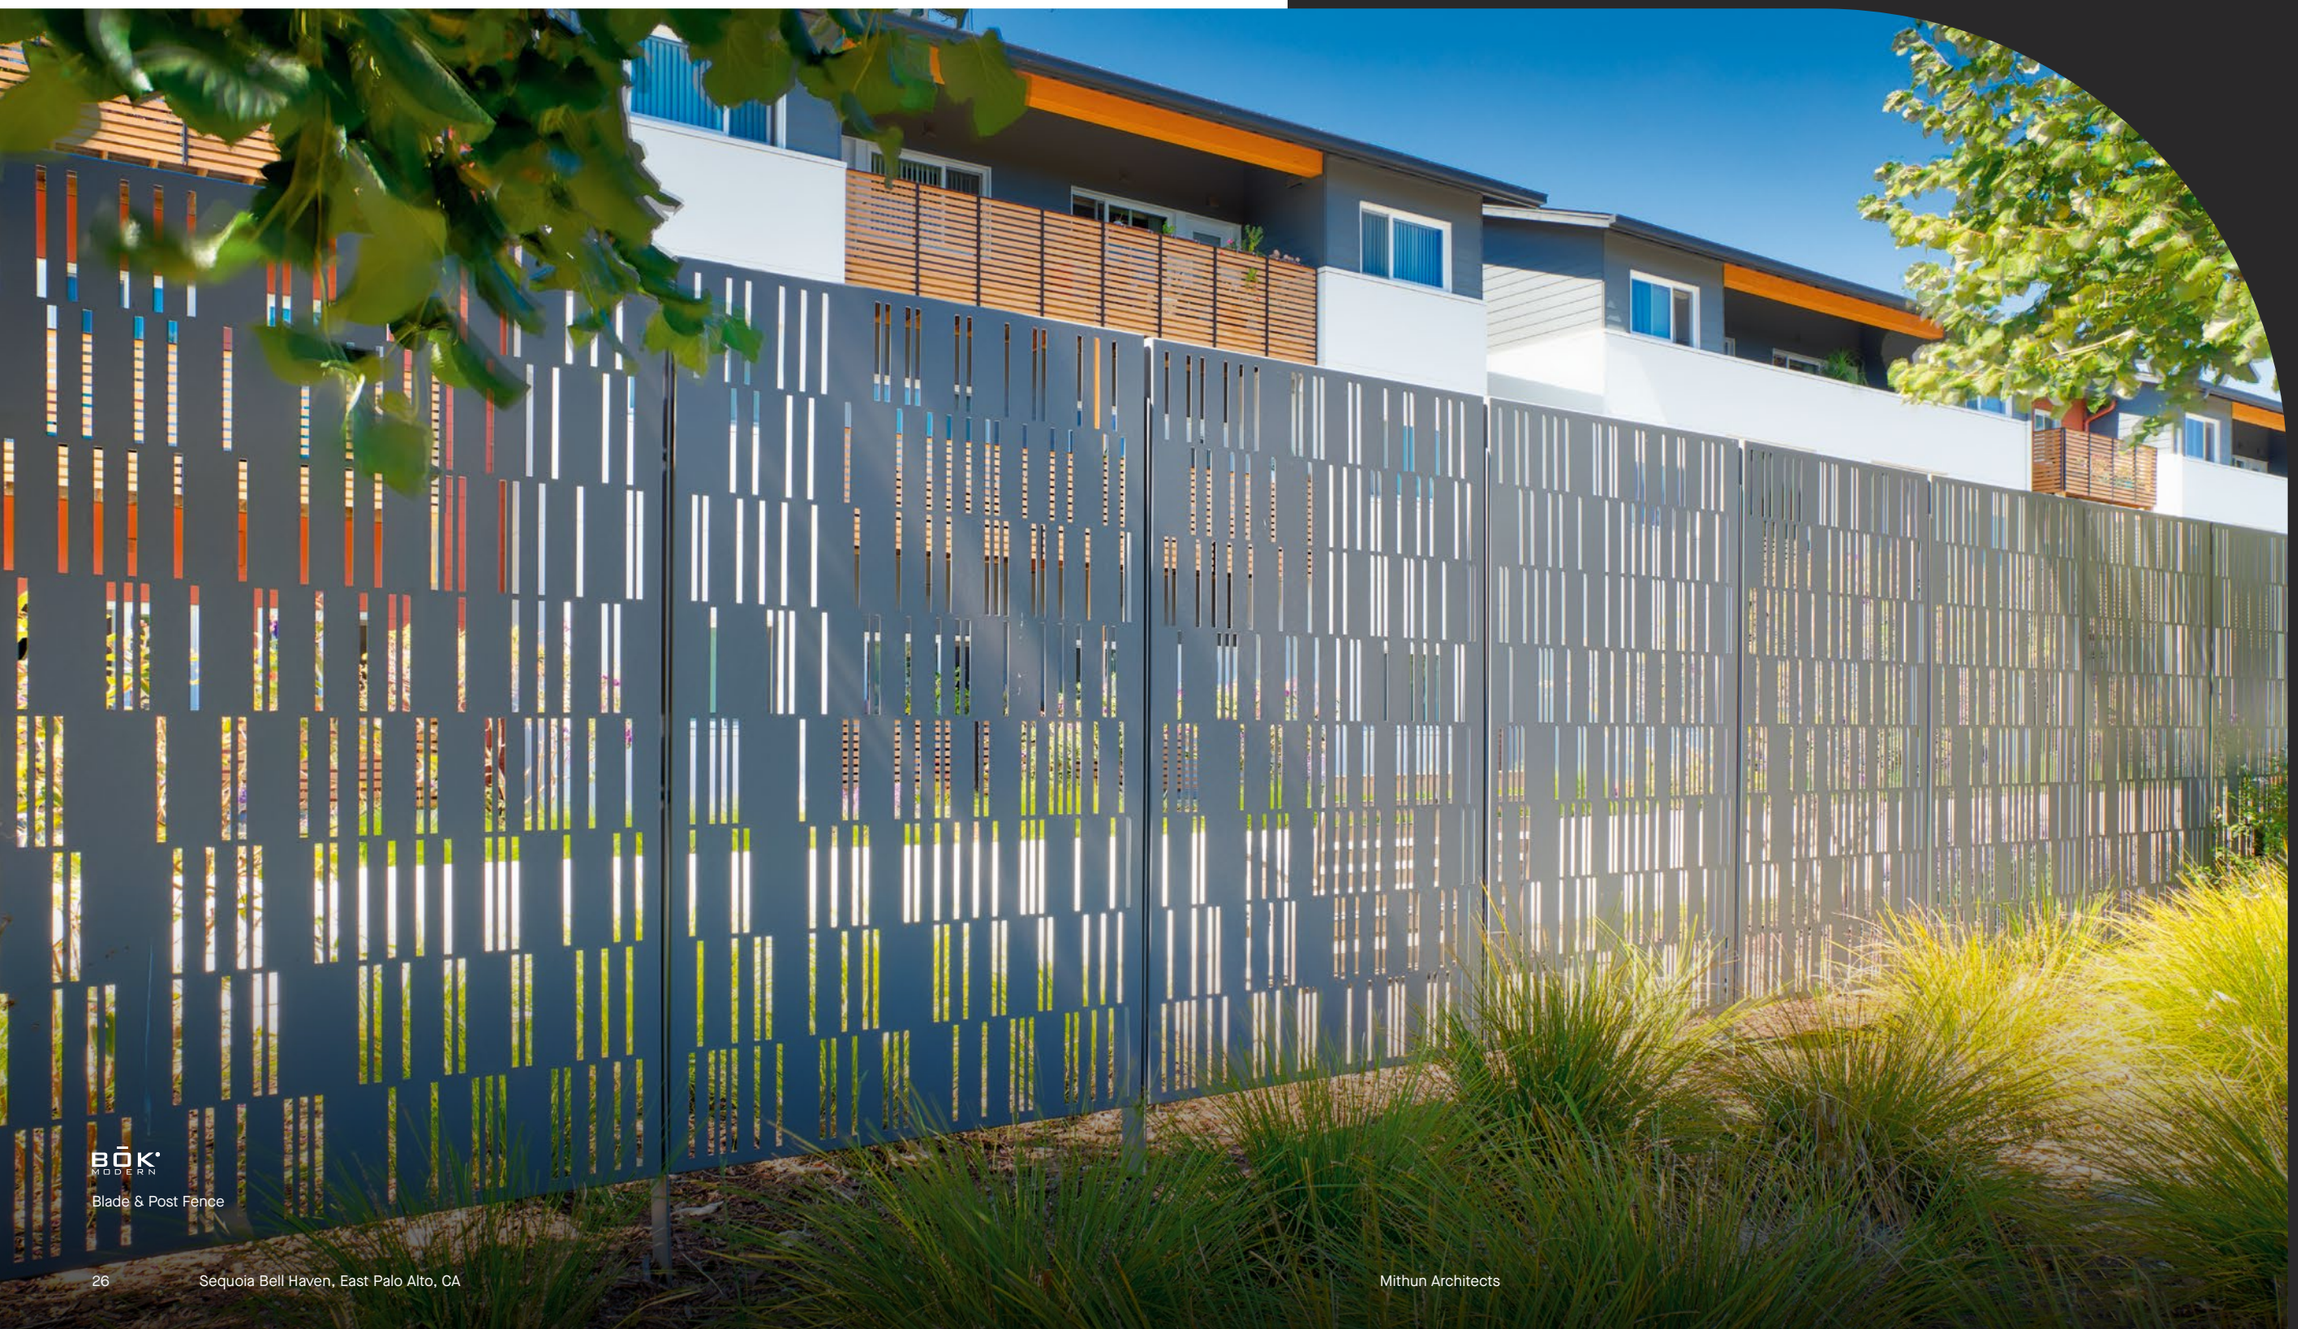

BŌK Modern® sunshades and canopies offer natural UV resistance and bracket-less systems for a streamlined, modern look. Laser-cut designs create a distinctive shading pattern while delivering long-lasting durability with minimal maintenance.

BŌK MODERN

Simple Mount Sunshade

Concealment

Conceal With Intention, Design With Confidence

BŌK MODERN
Blade & Post Fence

Sequoia Bell Haven, East Palo Alto, CA

Mithun Architects

Parallel™
Privacy Screens

Parallel™ privacy screens use durable extruded aluminum to deliver sound-dampening performance alongside refined aesthetics. Vertical or horizontal installation options, combined with powder-coated and sublimated finishes, provide lasting design flexibility.

PARALLEL

Privacy Screens

BŌK Modern®
Mechanical Screens

BŌK Modern® mechanical screens conceal rooftop equipment zones while contributing to the architectural story through laser-cut panels. Direct-mount installation eliminates secondary framing, and a cohesive aesthetic ties concealment seamlessly into the overall façade design.

Signature Solutions

From Statement to System, Custom Metal Realized

ZAHNER®

Custom Solution

Google Bay View Campus, Mountain View, CA

Bjarke Ingels Group (BIG) & Heatherwick Studio

Zahner®
Custom Works

Zahner® delivers custom metal at the highest level, offering distinctive finishes, patinas, and textures for projects where standard solutions reach their limits. Image-capable systems such as ImageWall and ImageLines, alongside spec-ready options including Moda and FlatSeam, provide the tools to realize one-of-a-kind exterior visions.
