Create a focal point. Accentuate an area with a splash of color or a simple pattern. If you have the canvas, we can provide the tools!

Mix...

Blend classic and modern, fabric and translucent looks. New bold hues and golden patterns play well with other Armstrong® Ceiling and Wall finishes.

...and Mingle.

Infuse some fun into your next ceiling design. Canopies are available in 2' x 5' and 2' x 6' sizes. Suspend them from the ceiling or anchor them to the wall. Mingle Hills with Valleys, or just let them flow as far as the eye can see.

With a Rainbow of Options
KEY SELECTION ATTRIBUTES

- Define spaces, accentuate an area, provide focus, or create ceiling artwork
- Mix and match sizes and shapes
- Standard components allow you to create custom configurations
- Suspend individually or in groups
- Lighting can enhance the impact of canopies
- Strong, impact-resistant edges
- Installation is fast and simple – no special tools required

INFUSIONS®

Canopies

Mix and Match Solids and Patterns.
TYPICAL APPLICATIONS

High visibility and focus areas, including:

- Hospitality and retail
- Office
- Healthcare
- Education
- Lobbies/atriums
- Exposed structure areas
- Transportation
IN\(\text{FUSIONS}\)® Accent Canopies

**PATTERNS**

**Goldtones**

- Spun Copper (TSC)
- Crushed Copper (TCC)

- Crystalline Sky (TSY)

**SOLIDS**

2’ x 5’ and 2’ x 6’

- Cultured Pearl (TCP)
- Inspiration Ice (TNC)
- Calm Water (TCW)
- Natural Faith (TNF)
- Loyalty Latte (TLL)
- Caribbean Renewal (TAR)
- Sage Happiness (TSH)
- Peace Blue (TPB)
- Sheer Iris (TSI)
- Blueberry Bliss (TBB)
- Red Fire (TRF)

**NOTE:** Due to printing limitations, shades may vary from actual product.
“Kansas City Royals’ Kauffman Stadium’s iconic feature is its 322-foot wide water spectacular – the largest privately funded fountain in the world, which shoots into action during key plays of the baseball games. During the ballpark’s $250 million renovation, this feature influenced the interiors as well as the exterior and became a key design element of a new outfield walkway. We selected the Infusions® Canopies to bring the idea of water movement into the entry lobby – the first interior experience of the ballpark, which incorporates well with the native limestone feature walls, demonstrating the continuity between earth and water. Also, the translucent blue calls not only to water, but to the Royals’ primary team color.”

<tr>
<td>7045</td>
<td>Dual Hinge Flush Linking Kit Links four canopies together end-to-end and flush side-to-side</td>
</tr>
<tr>
<td>7046</td>
<td>Dual Hinge 1/2” Linking Kit Links four canopies together end-to-end and with 1/2” spacing side-to-side</td>
</tr>
<tr>
<td>7047</td>
<td>Dual Hinge 3” Linking Kit Links four canopies together end-to-end and with 3” spacing side-to-side</td>
</tr>
</tbody>
</table>

**NOTE:** Accessory kits are compatible with all canopy sizes.

See panel arc details and Infusions® Accent Canopies Technical Guide, CS-3908, for layout and configuration ideas. If you need assistance identifying what and how many accessory kits are needed for your project, contact TechLine at 1 877 276 7876.
INFUSIONS® Accent Canopies

PHYSICAL DATA

Material
Polycarbonate

Surface Finish – Smooth

Fire Performance
Infusions® accent canopies have been tested according to NFPA 286 and are equivalent to Class A Interior Finish as defined by the International Building Code.

Designers and Installers are advised to consult a fire protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present. Contact TechLine at 1 877 276-7876 for specific US and Canadian fire performance data.

Design Considerations
Do not cut holes in or drill through Infusions® accent canopies. Doing so may cause the panel to bend in an irregular fashion.

Infusions panels are not approved for exterior application.

Installation Considerations
Do not allow the edges of the shapes to get wet or be exposed to moisture.

Infusions® accent canopies can be damaged by exposure to high temperatures. The temperature of the shapes should not be permitted to exceed 100°F.

Use the assembled canopy weights provided in this table to select mounting hardware that will meet this requirement.

Seismic Restraint
Refer to ASCE 7-10, Section 13.5 Architectural Components, for seismic requirements. Section 13.5, item 2 refers to 13.2.3 Consequential Damage.

Suspension System
Canopy-specific hardware must be ordered based on your design plan. For details and some design guidelines, contact TechLine or visit armstrongceilings.com/infusions.
