These partnerships provide pre-engineered, pre-fitted fixtures and components that integrate, work with, or complement Armstrong Ceiling Systems.

Our mission is to make it easier for architects, designers, and contractors, who are increasingly being asked to design and install integrated ceilings, to find, specify, and build compatible high-performance components for their ceiling layouts with confidence.

LUMINOUS & ALTERNATIVE SURFACES
- CLIPSO®
Redefining the way luminaries interface with the ceiling grid through innovative on-the-grid mounting techniques.

- Easy on-the-grid installation and made to order ceiling tiles to help reduce installation costs
- Ultra-shallow form factor
- Flanges for supporting acoustical ceiling tiles
- Light guide optical system providing comfortable, low glare illumination
Industry leader in air distribution solutions, which perfectly complement the interior aesthetic, while ensuring optimal thermal comfort in occupied spaces.

- Industry leading customizability ensure quality products meet any architectural requirement
- Strict engineered approach and decades of experience result in tested and proven solutions
- Custom finishes allow for a seamless blend with architectural features
- Industry leading quick-build options

priceindustries.com
Up to 73% lower operating costs than other conventional heating systems (electric, oil, and gas).

- Eliminate hard-to-heat areas in minutes
- Fast and easy lay-in installation
- No pipes, ducts, furnace, or chimney
Custom surface films and graphics for glass, walls, floors, ceilings, and doors.

- Seamlessly match your requirements and the décor of your space
- Cost effective – a fraction of the cost of new glass etching
- In-house team of professional designers to assist you all the way
Span grand distances and soar gloriously across the great indoors.

- Linear family of slot, suspended and surface luminaires
- ControlRoll™ Optics – seamless illumination with continuous lens up to 250’
- CompleteSuite™ Color LED Lamping Options
We design and manufacture small form factor, high performance LED lighting products for the architectural design community.

- The first indirect, energy code compliant cove system for open plan
- Volumetric lighting / 40fc at 29” A.F.F.
- Product selected by IES for 2017 Progress Report
The only lighting product that is designed, approved, and patented to replace the cross members in a suspended grid ceiling system.

- No plenum occupancy
- Improve acoustics and optimize ceiling light reflectance
- Reduce and save with tool free installation

T-BAR LED™
by JLC • tech

Tbarledsmartlight.com
Impart a glowing elegance and bring harmony to interior spaces.

- Ease of specification and installation
- Various lens options: regressed, flush, or pop-down to add visual interest to the ceiling plane
- Design flexibility with multiple lengths, color temperatures, and lumen output options
- Optimized to provide high performance and visual comfort
Architecturally sensitive, high-performance, energy-effective luminaires for general, ambient, task, and architectural applications in commercial and institutional spaces.

- Click — install-from-below zero-plenum LED luminaire system
- CovePerfekt™ — foolproof keyed mounting, up to 90% less labor
- Sculpt Geometrix™ — uniquely shaped lighting elements for creative ceiling designs
Create inspiring on-center continuous or non-continuous layouts that provide clean, modern aesthetics you’ll love.

- LENO LED light fixture installs from below to eliminate ceiling re-work
- Plug-and-play modular electrical wiring system
- Thin design for zero plenum applications with minimum clearance above ceiling

xalusa.com
Lighting and architecture perfectly integrated into the ceiling to deliver your vision of symmetry.

- Seamlessly integrate recessed downlights
- Eliminate the worry of field modified panels and grid
- Full family of downlight, adjustable and wall wash options
Cove lighting system for perfect color, perfect beam, and perfect alignment every time.

- Ideal for interior task and cove lighting for corporate, hospitality, and retail applications
- Integral power housing drops quickly into place with plug & play connections
- Cove’s architectural key-way means perfect alignment and light distribution
Bring a visual connection to nature with Luminous SkyCeilings and enhance the occupant wellness experience with multisensory virtual skylights.

- **Easy-to-install modular system**: seamlessly integrates LED lighting, image panels, and architectural reveals into a single, integrated solution
- **The sky is the limit**: highest quality, proprietary image library in the business
- **Custom design**: create one-of-a-kind, virtual skylights for a signature installation

skyfactory.com
Rapid installation, simple relocation, feasible retro-fitting and system versatility for all commercial suspended ceiling applications.

- Flexible systems meet fire protection standards
- Require less installation time vs. hard pipe armovers
- Reduce construction schedules to allow for rapid building occupancy
The next generation of luminous, acoustic, and custom surfaces. CLIPSO coverings can adapt to any design need, from simple ceilings and walls to intricate designs and complex shapes. Integrate existing fixtures and adapt to any style, whether modern or classic.

Performance Solutions:

- Luminous surfaces
- Large-scale, custom print capabilities
- Custom-shaped clouds and frames
- Superior acoustic performance
- Eco-friendly components (GREENGUARD GOLD Certification)
- Endless design possibilities
