FASTSIZE™ CROSS TEES  
& CEILING PANELS

## ON-CENTER LINEAR LIGHTING WITH FASTSIZE™ PANELS & SUSPENSION SYSTEMS

- ▶ Pre-engineered solution – no field modification required
- ▶ Visually replaces main runner; aligns lighting with grid module
- ▶ Zero construction coordination – installs from below

## COLORATIONS® WITH FORMATIONS™ CLOUD KIT

- ▶ 13 standard colors; made-to-order Sherwin-Williams® colors available – no field painting
- ▶ Eliminate 40% of the cables – less visible wires
- ▶ Kits assemble and install up to 50% faster than stick built clouds

## METALWORKS™ CLIP-ON

### WITH FULLY CONCEALED GRID

- ▶ Ideal for renovations – easy installation
- ▶ Use new or existing 15/16" grid for quick transformation
- ▶ Engineered, tested, and approved for all seismic areas

## YOU INSPIRE™ SOLUTIONS CENTER & CEILING CONSTRUCTION EXPERTISE

<b>YOU INSPIRE™ SOLUTIONS CENTER</b>	<b>CEILING CONSTRUCTION EXPERTISE</b>
▶ Pre-construction assistance	▶ Visit job sites – on-site training
▶ Specifications and construction details	▶ Keep your project on time, on budget, and on the mark

## AXIOM® BUILDING PERIMETER SHADE POCKETS

- ▶ Install 12 times faster than drywall shade pockets and twice as fast as other pockets
- ▶ Minimize risk and eliminate guesswork
- ▶ Reduce construction coordination between carpenters and MEP trades

## AXIOM® TRANSITIONS WITH DRYWALL GRID & FASTSHIP™ CLIPS

- ▶ Accommodates acoustical-to-acoustical, acoustical-to-drywall, drywall-to-drywall and drywall-to-acoustical
- ▶ Height transitions of 2", 4", 6", 8", and 10" or flush in straight and curved
- ▶ Easy installation – clip-on attachment and integration with grid using AXTBC or AXCLT

## AXIOM® DIRECT & INDIRECT LIGHT COVES

- ▶ Install 90% faster with just 10% of the labor of traditional light coves
- ▶ Predictable performance and perfect integration with Armstrong® suspension systems
- ▶ 10 finished feet installed in one step – just add lights

## AXIOM® GLAZING CHANNEL WITH TOTAL ACOUSTICS™ CEILING PANELS

- ▶ Five trim profile options to coordinate with Lay-in, Tegular, and Vector® ceiling panels and Drywall Grid Systems
- ▶ Control installation without time-consuming coordination with glazing contractors
- ▶ Reduce framing with integrated glazing channel, wall angle, and mud flange in one solution
