What's New
Fall 2025

Solutions for Today & Tomorrow.

In a world where spaces must do more, ceilings and walls are no longer just structural necessities — they're canvases for creativity, performance, and sustainability.

Our latest ceiling and wall solutions deliver high-performance functionality wrapped in sleek, flexible design. Driven by sustainability and innovation, these systems are made to elevate your next project — from concept to completion.

Get inspired.
See what's
new now.

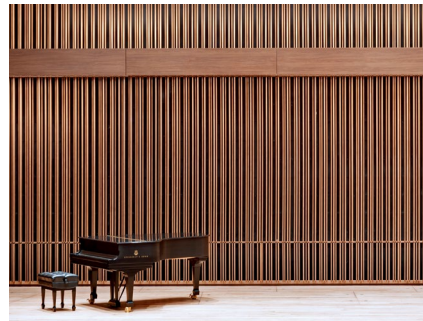

A Growing *Portfolio of Possibilities.*

As we continue to expand our portfolio of innovative architectural products and brands, we welcome the latest addition, Geometrik – a leading Canadian designer and manufacturer of high-quality wood acoustical ceiling and wall systems.

New Shapes. *Unlimited Possibilities.*

Complex ceiling design just got easier
with new WoodWorks® Shapes for
DesignFlex® – Grille & Linear ceiling panels.

Geometric visuals combine with the warmth of wood to
create beautifully dynamic installations with standard items.

From complicated to effortless, mix and match shapes and
finishes for streamlined specifying and faster lead times.

Nature Inspired. *Tech-Enabled.*

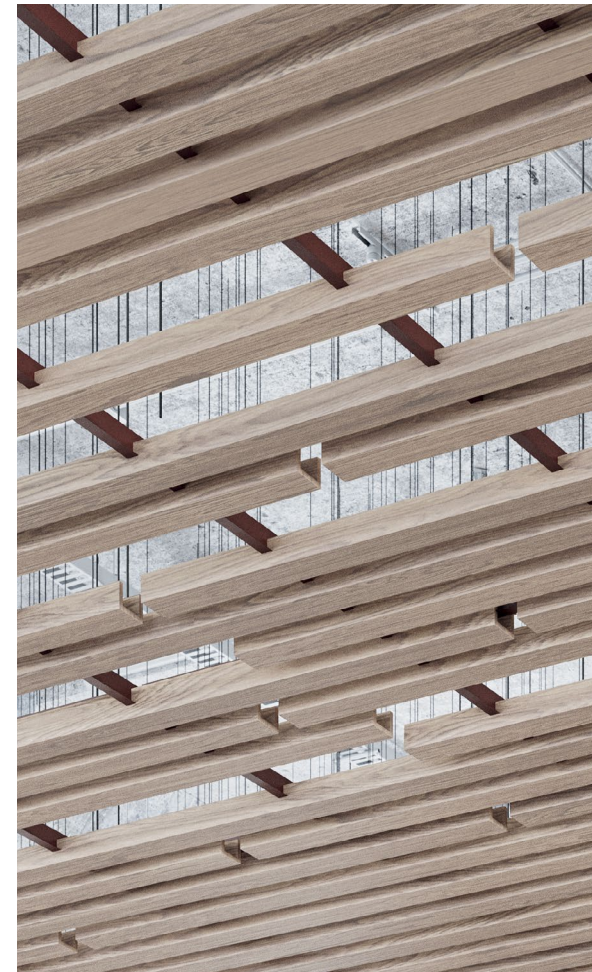

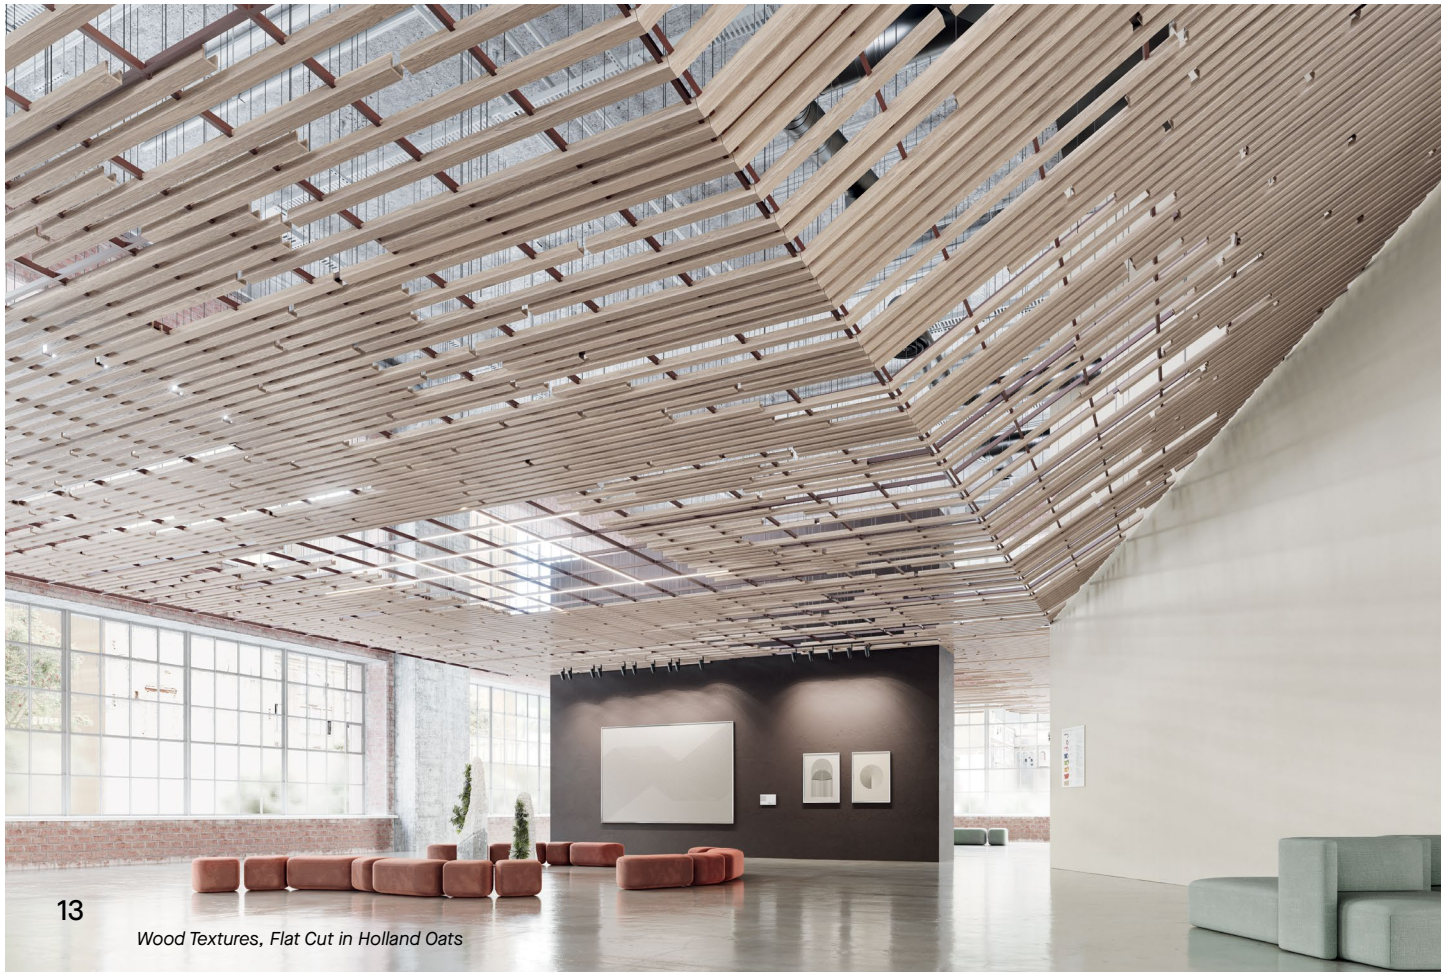

Celebrate this elemental material's elegance and versatility, while pushing the boundaries of what's possible in the natural world with Wood Textures. By pairing the aesthetics of timber with acoustic utility, Turf® helps designers to work with nature and sound in service of welcoming spaces for everyone.

Wood Textures push the boundaries of nature with expressive, sometimes surreal interpretations that merge biophilia and digital artistry.
