

MetalWorks™ Linear® with Inverted Axiom Vector - Vertically Curved

This trim coordinates perfectly with Armstrong® Vector ceiling panels to mimic the 1/4" reveal with a narrow vertical fin profile.

KEY SELECTION ATTRIBUTES

- · Recommended for use with full-size Vector ceiling panels; preserves factory-cut Vector edge detail
- · Adjustable Trim Clip (item 7329 purchased separately) allows for integration of Axiom® Vector with WoodWorks® and MetalWorks™ panels that drop greater than 3/8" below the grid flange. Reference installation instructions for requirements.
- · Incorporates the sophisticated grid-hiding visual of a Vector ceiling with a perimeter
- · Vertical curving capabilities
- · Dynamic curving capabilities
- · Factory precision mitering and custom lengths available as special order
- · Axiom trim is part of the Sustain™ portfolio and meets the most stringent industry
- sustainability compliance standards today
- CleanAssure™ family of products includes disinfectable panels, suspension systems, and trim (Cleaning and CDCapproved disinfecting options available on armstrongceilings.com/cleaning)
- · Recommended for use with full-size Vector ceiling panels; preserves factory-cut Vector edge detail
- · Colors coordinate with Armstrong® ceiling and suspension systems
- · Extruded aluminum trim provides more crisp edge detailing compared to conventional roll-formed steel systems
- Compatible with Armstrong® exposed suspension systems and FrameAll® Drywall Grid
- · Custom slotting, perforating, and cutouts available

COLORS Due to printing limitations, shade may vary from actual product.

- ◆ Add the 2- or 3-letter type and color suffix to the item number when specifying or ordering (Example: AX8VESTR <u>H</u> <u>A</u> _) add an extra digit "3" before the color suffix if paint is required inside and outside of trim (Example: AX8VESTR <u>3</u> <u>H</u> <u>A</u> _) * Number of Included Accessories is subject to change based on material length
- ** AX-V-TBC can be ordered in lieu of AXTBC when necessary, see section details below for examples

 *** Bend will vary depending on ceiling type. Refer to install instructions for more information.

AXIOM DYNAMIC CURVING CAPABILITIES

Axiom® Dynamic Curving is a new manufacturing capability that enables straight and curved to be produced on a single, continuous piece of trim (single orientation only). This industry-first capability maximizes material usage with full-length pieces and minimizes joints and visible seams.

Design Considerations

Physical product samples for standard and custom colors are available upon request. Please refer to the physical product sample prior to making a final selection. While we strive to ensure exact color matches, various factors such as differences in materials, texture, substrate porosity, painting processes lighting, and observer subjectivity can all affect how paint colors appear on ceiling and wall panels, suspension systems, and trim products. Due to these and other differences, ceiling and wall panels, trim products, and suspension systems with the same color name will coordinate but may not be an exact color match. Product is dve-lotted. Order sufficient initial quantities and attic stock to minimize possible color variation.

All acoustical grid and Axiom trim accessories (a.k.a. clips) are supplied as unpainted items. Exposed clips will need to be field painted after installation, if required for the project. This ensures accessories meet the tested performance criteria and adhere to AWI installation instructions and warrantied products or systems
