Infusions™ Resilient Partitions in Twine Trails

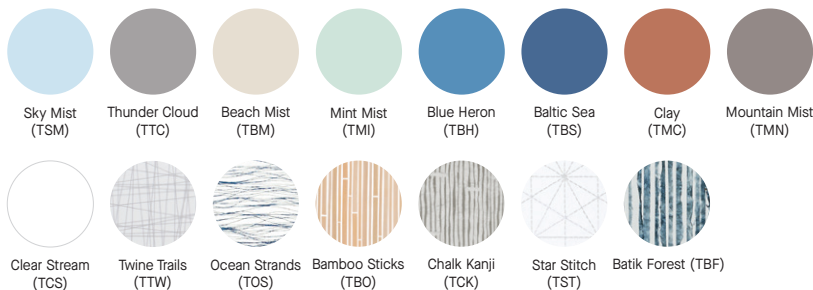

Transform existing shared spaces into segmented areas with nonporous and easily cleanable wall partitions artfully designed in a variety of patterns and colors.

KEY SELECTION ATTRIBUTES

- new** Large format, standard 24" x 96" wall panels are easy to install and reconfigure existing layouts to meet social distancing guidelines
- Partitions can be suspended individually or in groups from ceilings or attached to walls
- new** CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim
- Panels can be field cut to accommodate the needs of your space
- Unlike other divider or partition materials, PETG provides a long-lasting designer finish
- Panels and installation hardware packaged in one complete kit
- new** 2 piece minimum order
- Part of 24/7 Portfolio – Partitions help separate areas and provide barriers for social distancing

Fire Performance

Infusions™ Resilient panels have been tested according to NFPA 286 and are equivalent to Class A Interior Finish as defined by the International Building Code.

Contact TechLine at 1 877 276-7876 for specific U.S. and Canadian fire performance data.

Installation and Design Considerations

Do not allow panel edges to get wet. Infusions Resilient panels are not approved for exterior application.

Panel kits include ceiling hanging kit and floor mounting kit hardware. Floor mounting hardware is optional, but recommended. Floor mounting hardware requires field drilling pilot holes in panels.

Linking kits must be ordered separately.

Panels can be damaged by exposure to high temperatures. Panel temperature should not be permitted to exceed 100°F.

Cleaning and Disinfecting

Cleaning and CDC recommended disinfecting options available on armstrongceilings.com/cleaning
