MetalWorks Clip-on 2' x 8' panels in Sequels - La Jolla Oak

Easy-to-install, downward-accessible panels are perfect for renovations.

KEY SELECTION ATTRIBUTES

new

- Sequels™ pre-coat finishes offer 4 new standard wood looks that are available FAST, including downlight panels

- Also available in 17 standard Effects™ wood-look finishes

- CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim

new

- Sustainable Beyond Standard: Select standard and custom panels are part of the Sustain™ portfolio, and meet the most stringent industry sustainability compliance standards today

new

- MetalWorks™ FASTPeel™ panels feature an easier-to-remove protective film

- Select products included in the FAST134 program – ready to ship in 4 weeks or less
- Transform your images onto custom perforated MetalWorks™ Create!™ ceiling and wall panels for a unique aesthetic visual with acoustical performance
- Great for renovations – transform spaces with existing 15/16" suspension quickly and easily
- 24" x 24" and 24" x 48" standard sizes; custom sizes available up to 24" x 48"
- Fixture frames provide a clean, finished look
- NRC values up to 0.90 with fiberglass infill panels

SUSPENSION SYSTEMS

PHYSICAL DATA

Material

Aluminum – thickness 0.040"

Surface Finish

Painted: Factory-applied polyester paint

Effects: Powder-coated, dye-sublimation, post-production

Sequels™: Pre-coated coil

Custom colors also available.

Custom Sequels finishes are available for orders 10,000 SF or larger.

Fire Performance

Painted, Effects and Sequels finishes:

Class A: ASTM E84, Flame Spread Index 25 or less. Smoke Developed Index 50 or less.

Painted aluminum finishes CAN/ULC S102 surface burning characteristics: Flame Spread Rating 25 or less. Smoke Developed Classification 50 or less.

Acoustical Options

Perforated panels are supplied with a black fiberglass fleece to absorb sound.

Recycled Content

Up to 16%.

Design Considerations

Panel face sits 1" lower than the suspension system. Some light, sprinklers, and other components may need to be height-adjusted when retrofitting.

Panels have a directional finish; follow direction arrows printed on the protective film.

Anodized, Lacquer Mill, and pre-coat finishes may vary in shade between production runs as well as over time. Sizes can be mixed and matched on non-perforated panels only.

Butt joint panels are recommended if the suspension system is not coordinated with the panel color.

MetalWorks steel and aluminum panels are made at different manufacturing facilities that use different paint systems. Because of this, similar colors, i.e., White and Whitelume, are not exact color matches. Please consider this when designing adjacent spaces with multiple MetalWorks products.

On pre-coated finishes, clarity of image is best on flat surfaces. Pattern repeat may occur. Product is dye-lotted. Due to potential color variation, be certain to order sufficient initial quantities and attic stock.

Installation Considerations

Ensure suspension is level and square, whether using existing or new suspension system.

Panels with certain product finishes, e.g., Effects™ and Natural Reflections, are not MetalWorks™ FASTPeel™ panels and will be protected by other means for packaging and handling purposes.

Seismic Restraint

MetalWorks Clip-on panels have been engineered, tested, and approved for application in all seismic areas when installed per Armstrong Ceilings installation instructions.

Design Support

For custom design assistance contact ProjectWorks® Design Services or visit armstrongceilings.com/projectworks

Cleaning and Disinfecting

Cleaning and CDC-approved disinfecting options available on armstrongceilings.com/cleaning

FAST134 Program Considerations

Size of Job Matters: Big jobs, over 2500 SF or 50 pieces for shapes/vertical elements will have longer lead times.

Location Matters: Transit time not included. We are ready to ship in 1 week on FAST1 items. However, transit to the states west of Wyoming may add time.

Distributor Truck Schedule Matters: We rely on distribution to help move products around the country. When speed matters, work with your local distributor to ensure FAST134 service.

Stock vs Made-to-order Matters: FAST3 & FAST4 items are made-to-order and will ship direct to distributor. FAST1 (stocked items) will go through distribution and depend on distributor truck schedules.

Warranty

One (1) Year Limited Warranty. Details at armstrongceilings.com/warranty

Weight

LIGHTING SOLUTIONS METALWORKS™ Clip-on

Center-cut Panels for Recessed Downlighting
smooth texture

MetalWorks Clip-on 24" x 24" center-cut downlight panels in Sequels - Cape May Cherry

Pre-cut durable, metal ceiling panels are designed to seamlessly integrate with trimless downlights. Perfectly centered fixtures, perfectly cut tiles—every time.

KEY SELECTION ATTRIBUTES

- Perfectly centered USAI® Lighting fixtures for flush fit visual
- Coordinating fixture colors available for all standard downlight finishes
- Time and labor savings solution - downlight fixtures are fully adjustable within the system so there is no cutting, no mess, and no need to remove panels
- Entire system helps contribute to healthier spaces, part of CleanAssure™ portfolio
- Pre-cut Clip-on downlight panels available in FAST134 program
- Pre-engineered and tested for fit and finish in all seismic areas
- For offset factory-cut panels, contact ASQuote@armstrongceilings.com. Custom grid layouts are possible depending on lighting layout.

DETAILS

1. M1 panel with USAI Lighting trimless BeveLED® square downlight
2. M16 panel with USAI Lighting trimless BeveLED square downlight
