## PHYSICAL DATA

**Material**
Glass Fiber Reinforced Gypsum is a composite consisting of gypsum cement and water, reinforced with glass fibers. Complies with ASTM C-1355/C-1355M and ASTM C-1381.

**Surface Finish**
Standard unfinished, paint grade. Can be coated to achieve any desired color.

**Fire Performance**
Glass A Fire Performance per ASTM E84.

**Installation Considerations**
Install Plasterform™ parts as indicated on approved shop drawings, other recommendations, and the contract requirements. Comply with ASTM Standard C1467 for installation. Use caution and wear appropriate hand, eye, and dust mask protection when handling Plasterform materials. Refer to installation instructions for complete details.

**Design Support**
Project management assistance is available by calling TechLine at 1 877 276-7876.

**Warranty**
One (1) Year Limited Warranty. Details at armstrongceilings.com

**Weight**
For 3/16" thickness: 2-3 lbs/SF (may vary depending on part design)
