WoodWorks® Concealed 24" x 96" panels with W2 perforation in Plain Slice Cherry

This easy-to-install ceiling with a concealed suspension offers a continuous, monolithic visual.

### KEY SELECTION ATTRIBUTES

- new** • Standard veneers feature various species and cuts for beautiful wood visuals
- ASTM E84 Class A Fire Performance
- The natural warmth of wood can contribute to biophilic designs and building certification standards like the WELL™ v2 "Nature and Place" feature
- Acoustical fleece for increased sound absorption
- Select products included in the FAST134 program – ready to ship in 4 weeks or less
- Hook-on panels (for standard 15/16" suspension system) provide safe and secure downward accessibility
- Shorter lead times and lower cost than custom millwork
- Factory edgebanded for superior quality
- Complete standard system from one manufacturer including panels, suspension system, clips, and trim
- CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim

- new** • FSC® certified wood available as a premium quoted option (FSC® C007626)
- USDA Biobased content: 100%
- Made in the U.S.A. of domestic and global content
- Build America, Buy America (BABA) Act compliant

### VENEER CUTS

Different cuts of a log will yield different graining visuals. Choose your veneer to achieve your desired look.

**Plain Sliced**  
Produces the well known cathedral or loop-grain effect.

**Quarter Sliced**  
Produces a striped, often straight-grain effect.

**Rift Sliced**  
Produces a tight, linear grain along the entire length of the veneer.

	AX_VECUR_ _ _	Axiom Vector Curved Trim – Recommend in Black 6" and up	N/A	Silver Grey, Black, Gun Metal	10 LF
	6603W1BL	WoodWorks® Concealed Trim	6" x 120" x 6"	Black	6
	7239	Adjustable Trim Clip	N/A	Mill Finish	50
FSC® Certified Premium Trim*	6481F02W1H6_ _ _	6" FSC Veneered Trim with 4 Clips – Item 5925 (With Faux Wood Edgebanding on long edges)	6" x 96" x 3/4"	All Veneers	4
	6481F02W1H8_ _ _	8" FSC Veneered Trim with 4 Clips – Item 5925 (With Faux Wood Edgebanding on Long Edges)	8" x 96" x 3/4"	All Veneers	4

◆ When specifying or ordering, include the appropriate 3-letter color suffix that coordinates with your WoodWorks ceiling (e.g. 6408 **N W M**).

\* FSC-certified wood is a premium option available through ASQuote.

† For 24" x 48" panel, install 4 hooks; for 24" x 72" panel, install 6 hooks; for 24" x 96" panel, install 8 hooks.

NOTE: Three screws per hook. Refer to [armstrongceilings.com/installation](http://armstrongceilings.com/installation) for a better understanding of suspension systems requirements.

Installation Detail –  
WoodWorks® Concealed Ceiling System

### INSTALLATION OF TRIM (ALUMINUM SUBSTRATE) FOR WOODWORKS® PANELS

Adjustable Trim Clip (7239)  
in standard position

### PHYSICAL DATA

#### Material

Fire-rated particle board (FRPB) with real wood veneers.  
Vertical Grain Fir (NVF) is FRPB with a reconstituted veneer.

#### Surface Finish

Clear or tinted semi-gloss coating

#### Fire Performance

Class A: ASTM E84 surface burning characteristics.  
Flame Spread Index 25 or less. Smoke Developed  
Index 50 or less.

CAN/ULC S102 surface burning characteristics.  
Flame Spread Rating 25 or less. Smoke Developed  
Classification 50 or less.

#### ASTM E1264 Classification

Type XX – Fire Class A

#### Primary (Embodied) Energy

See all LCA information on our EPDs.

#### Application Considerations

Variation among panels may occur due to the natural  
characteristics of the wood and grain.

Use of large wood panels may result in deflection up to 1/8"  
and cause alignment inconsistency due to size and ambient  
conditions.

It is very important that WoodWorks® panels are climatized  
prior to installation. Relative humidity between 25% and

55%, and temperatures between 50°F and 86°F, must be  
maintained throughout the life of the product.

#### Design Considerations

All perforated panels are standard with fleece attached. Panels  
without fleece must be specified.

Do not mix different panel sizes with slotted perforations.

Perforation borders will not align. The use of Armstrong®

Prelude® 15/16" suspension system is strongly recommended.

Cloud installations less than 6' wide are not recommended.

Not recommended for SingleSpan™ corridor applications.

#### Design & Pre-Construction Service

For complimentary design and pre-construction assistance,  
contact ProjectWorks® or visit  
[armstrongceilings.com/projectworks](http://armstrongceilings.com/projectworks)

#### Specification Consideration

Attention: For FSC® certified wood products to maintain their  
CoC certification, products must be sold to a CoC certified  
distributor, or directly to the installing contractor. Failure to  
do so breaks the CoC.

#### Seismic Restraint

WoodWorks Concealed panels have been engineered, tested,  
and approved for application in all seismic areas when installed  
per Armstrong Ceilings installation instructions.

#### Cleaning and Disinfecting

Cleaning and CDC-approved disinfecting options available  
on [armstrongceilings.com/cleaning](http://armstrongceilings.com/cleaning)

#### FAST134 Program Considerations

Size of Job Matters: Big jobs, over 2500 SF or 50 pieces for shapes/  
vertical elements will have longer lead times.

Location Matters: Transit time not included. We are ready to ship  
in 1 week on FAST1 items. However, transit to the states west of  
Wyoming may add time.

Distributor Truck Schedule Matters: We rely on distribution to  
help move products around the country. When speed matters, work  
with your local distributor to ensure FAST134 service.

Stock vs. Made-to-Order Matters: FAST3 & FAST4 items are  
made-to-order and will ship direct to distributor. FAST1 (stocked  
items) will go through distribution and depend on distributor  
truck schedules.

#### Warranty

Details at [armstrongceilings.com/warranty](http://armstrongceilings.com/warranty)

#### Weight/Square Feet

5983F01, 5984F01, 5985F01 – 2.75 LBS/SF; bulk packaged per  
order. Suspension system, hardware, and accessories  
ordered separately.
