WoodWorks Definitions are an ideal solution for multi-use spaces that demand intimacy and smaller gathering points of focus.

KEY SELECTION ATTRIBUTES

- Custom partition solutions offer more ways to make your vision a reality
- Available in solid wood and real-wood veneers
- Variety of edge detail options and hardware
- The natural warmth of wood can contribute to biophilic designs and building certification standards like the WELL™ v2 "Nature and Place" feature
- FSC® certified wood available
- Select WoodWorks® panels are part of the Sustain® portfolio, and meet the most stringent industry sustainability compliance standards today
- Panels typically 4' to 10'
- Coordinate with any space, ceiling, or wall
- Density of panels can be increased to accommodate acoustics needs
- Interior use

PHYSICAL DATA

Material

Solid wood (Poplar or Western Hemlock)

Fire-rated particle board (FRPB) with real wood veneers.

Vertical Grain Fir (NVF) is FRPB with a reconstituted veneer.

Surface Finish

Clear or tinted semi-gloss coating.

Fire Performance

Fire Performance information available upon request, depending on desired material and finish.

Design Considerations

Variation within panel and from panel to panel may occur due to the natural characteristics of the wood and grain.

Custom options include different dimensions, species, and finishes.

Design & Pre-Construction Service

For complimentary design and pre-construction assistance, contact ProjectWorks® or visit armstrongceilings.com/projectworks

Site Conditions

It is very important that panels are climatized prior to installation.

Relative humidity between 25% and 55%, and temperatures between 50°F and 86°F, must be maintained.

Cleaning and Disinfecting

Cleaning and CDC-approved disinfecting options available on armstrongceilings.com/cleaning

Warranty
