Axiom® Trim for Drywall
and AcoustiBuilt 

 = Items included in the
Sustain® portfolio

Programs & Services Used

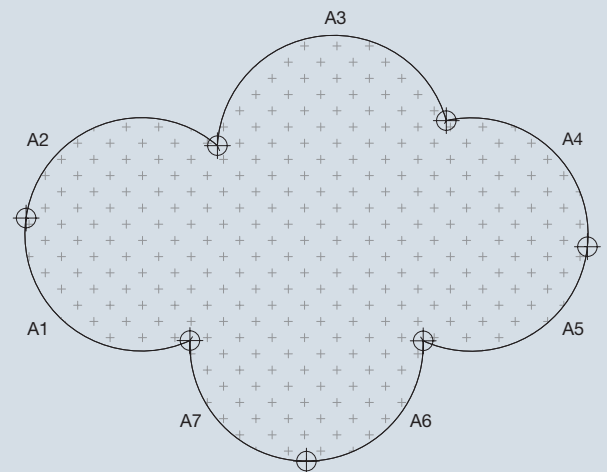

To help ensure feasibility of the architect's design intent and add construction efficiency, ProjectWorks® provided detail drawings. Since the Axiom® perimeter trim was prefabricated, ProjectWorks helped optimize the layout's splice locations and the manufacturing trim schedule to yield the least amount of scrap possible. The pre-cut Axiom was shipped to the jobsite, generating no additional waste during construction, resulting in a sustainable enhanced visual.

FeltWorks® Blades – HookOn Ebbs & Flows modular kits redefines the visual plane while adding warmth to interior spaces and more quieting acoustics.

Design Inspiration

Axiom trim provides crisp edge detailing and unique flexibility in straight and curved applications.

Detailed Axiom layout provided by ProjectWorks, showing exact location of each segment of trim.
