

CEILING & WALL PLANKS

Armstrong®
Ceilings

The Plank ceiling collection offers ceiling planks in a variety of finishes, three different materials, and two sizes. All have a beveled tongue and groove edge for a no-grid look. These planks install directly to joists or an existing ceiling and are a great cover-up option for drywall, plaster, popcorn or textured ceilings. Some planks also install to walls. For more information, visit ceilings.com/planks.

| Plank Options | Dimensions (Inches) | Material | Noise Reducing NRC/CAC | Sag Resistance | Mold/Mildew Resistance | Fire Resistance | Installs directly to ceiling | Installs over suspended grid | Installs on walls |
|--------------------------------------|---------------------|---------------------------------|------------------------|----------------|------------------------|-----------------|------------------------------|------------------------------|-------------------|
| Country Classic™ Plank | 6 × 48 × 1/2 | Mineral fiber | -/30 | Standard | Standard | Class A | ✓ | | |
| WoodHaven™ Planks | 5 × 84 × 3/8 | MDF (medium density fiberboard) | -/- | Standard | Standard | Class C* | ✓ | ✓ | ✓ |
| Easy Elegance™ Plank Woodgrain White | 6 × 48 × 1/3 | Rigid PVC plastic | -/- | Superior | Superior | Class A | ✓ | | ✓ |

* For use in commercial spaces as well, but check with local code officials: In most sprinklered spaces, WoodHaven planks can be installed over unfinished drywall per installation instructions.

WOODHAVEN™ PLANKS

- 5-in × 84-in planks are made of MDF (medium density fiberboard)
- Prefinished; no sanding, staining or sealing
- Great for covering drywall, plaster or popcorn ceilings
- Install over existing basement ceiling grid
- Items #1140, 1148, 1149, 1138, and 1139 can be used for wainscoting or walls
- Updated ceiling look without ceiling height loss
- Staggered installation means minimal waste

WOODHAVEN™ PLANKS CEILING INSTALLATION

Three installation options to choose from. Review complete installation instructions at ceilings.com/installwoodhaven before beginning your project.

1 CLIPS AND SCREWS

Installation clips and screws are included in the plank package and install directly to furring strips (sold separately). This installation method is suitable for ceilings with a greater than 10 degree slope.

2 EASY UP® TRACKS AND CLIPS

The Easy Up® installation system is fast and easy with snap-on (vs. screw-in) clips, and is the recommended method to install planks over drywall, plaster or popcorn ceilings. Use the Easy Up® installation system for ceilings with a less than 10 degree slope.

Item #1190 (20 tracks per carton)
Item #1191 (360 clips per carton) or
Item #1191SC (135 clips per carton)

NOTE: Both track products and clip accessories are required for a complete Easy Up system and must be used together. Items are sold separately.

3 RETROFIT 15/16-IN GRID

Transform an existing 15/16-in suspended (drop) ceiling using Easy Up® clips and WoodHaven™ planks.

Remove panels

Snap on Easy Up clips

Position planks; slide and secure clips

NOTE: Existing grid must be 15/16-in. Easy Up clips (sold separately) must be used for the retrofit installation. Screws and clips included in the WoodHaven package are only used where grid intersections interfere with the installation of an Easy Up clip. Visit ceilings.com to order a sample Easy Up Clip to test grid for a snug fit.

WOODHAVEN™ PLANKS WALL INSTALLATION

Install vertically on a wall using construction adhesive.

With either option, finish with a trim of your choice.

For more information, visit ceilings.com/woodhaven

Install horizontally on a wall using clips included in the WoodHaven plank carton.

1139 WOODHAVEN™ WOVEN CHARCOAL GRAY (CEILING)

1148 WOODHAVEN™ PAINTED WHITE (CEILING)
