WOODHAVEN™ PLANKS

FEATURES AND BENEFITS

- 5-in × 84-in planks are made of MDF (medium density fiberboard)
- Prefinished; no sanding, staining or sealing
- Great for covering damaged drywall, plaster or popcorn ceilings
- Install over existing basement ceiling grid
- Items #1140, 1148, 1149, 1138, and 1139 can be used for wainscoting or walls
- Item #1148 and 1149 are paintable*
- Updated ceiling look without ceiling height loss
- Beveled tongue and groove edge minimizes the appearance of gaps during normal expansion and contraction
- Staggered installation means minimal waste
- Class C Fire Performance: appropriate for residential spaces**

* Painting will void warranty.

** For use in commercial spaces as well, but check with local code officials: In most sprinklered spaces, WoodHaven planks can be installed over unfinished drywall per installation instructions. Certain finishes are not available in all areas.

INSTALL WOODHAVEN™ PLANKS ON CEILINGS IN THREE WAYS!

Before starting your project, review complete installation instructions at ceilings.com/installwoodhaven for important design and installation considerations.

1 WOODHAVEN CLIPS AND SCREWS

Installation clips and screws (55 each) are included in the plank package and install directly to furring strips (sold separately). This installation method is suitable for ceilings with a greater than 10 degree slope. Please contact Techline at 1-877-ARMSTRONG (276-7876) for guidance on how to install planks on a sloped ceiling.

2 EASY UP® TRACKS AND CLIPS

The Easy Up® installation system is fast and easy with snap-on (vs. screw-in) clips, and is the recommended method to install planks over drywall, plaster or popcorn ceilings. Use the Easy Up® installation system for ceilings with a less than 10 degree slope.

Item #1190 (20 tracks per carton)
Item #1191 (360 clips per carton) or
Item #1191SC (135 clips per carton)

NOTE: Both track products and clip accessories are required for a complete Easy Up system and must be used together. Items are sold separately.

3 RETROFIT 15/16-IN GRID

Transform an existing 15/16-in suspended (drop) ceiling using Easy Up® clips and WoodHaven™ planks.

Remove panels

Snap on Easy Up clips

Position planks; slide and secure clips

NOTE: Existing grid must be 15/16-in. Easy Up clips (sold separately) must be used for the retrofit installation. Screws and clips included in the WoodHaven package are only used where grid intersections interfere with the installation of an Easy Up clip. Visit ceilings.com to order a sample Easy Up Clip to test grid for a snug fit.

INSTALL WOODHAVEN™ PLANKS ON WALLS IN TWO WAYS!

Install vertically on a wall using construction adhesive. Follow the adhesive manufacturer's recommendations for surface preparation and application rate. Use painter's tape if necessary to hold planks in place until the adhesive sets up.

Install horizontally on a wall using clips included in the WoodHaven plank carton.

With either option, finish with a trim of your choice.
