**QUIKSTIX™**

Drywall Ceilings Locking Pocket Mains

---

**KEY SELECTION ATTRIBUTES**

- Reduces time and labor installing drywall ceilings in tight plenum conditions
- Uptight clip allows installation in 1-13/16” to 5-1/2” plenums
- Locking Pocket Main has the same characteristics as a Strongback
- Locking Pocket Main allows uptight installation because installed at same level as ShortSpan tees

- ShortSpan Tees can span up to 8’-6” without vertical support (16” o.c.)
- Locking Angle Mold eliminates measuring, marking and screwing at perimeters
- Reduces 7/8” hat channel shot up tight to structure – significantly reduces shots required

**TYPICAL APPLICATIONS**

- Condominiums
- Apartments
- Residences
- Dormitories
- Barracks
- Town homes
- Rest rooms
- Motels
- Hotels
- Villas
- Suites

**NOTE:** All components are available with G90 hot dipped galvanized coating. Just add G90 suffix to end of item #.

---

**INSTALLATION NOTES**

1. Vertical Supports to structure should be either QuikStix Uptight Clips or stiff legs using scrap metal. Wire is NOT recommended for hanging this system.
2. ShortSpan tees must be cut within 1/8” of vertical leg of the Locking Angle Moldings and Locking Pocket Mains.
3. To engage ShortSpan tees into Locking Pockets: insert right hand flange of tee into long pocket first and allow left flange to clear short pocket and rest flat. Slide tee to the left to engage in short pocket (audible click).
