**Section 1 - IDENTIFICATION**

**Material Name:** Woodhaven Laminate Ceiling Planks  
**Chemical Family**  
Laminate wood ceiling product  
**Recommended Use**  
ceiling tiles  
**Restrictions on Use**  
None known.

**Manufacturer Information**  
Armstrong World Industries  
2500 Columbia Ave.  
Lancaster, PA  17603  
Phone #: 877-276-7876  
Email: techline@armstrong.com  
Emergency #: 1-800-255-3924 (ChemTel)  
www.armstrong.com

**Section 2 - HAZARD(S) IDENTIFICATION**

**HAZARD DISCLOSURE:** Laminate ceiling products are not hazardous under the criteria of the Federal OSHA Hazard Communication Standard 29 CFR 1910.1200. However, wood dust generated by sawing, sanding or machining these products is hazardous.

**HAZARD IDENTIFICATION FOR WOOD DUST:**  
**Symbol(s)**

**Signal Word**  
WARNING!

**Hazard Statement(s)**  
Suspected of causing cancer  
Causes eye irritation  
Causes mild skin irritation  
May cause respiratory irritation

**Precautionary Statement(s)**  
Avoid exposure. Use only with adequate ventilation. If power tools are used, they should be equipped with a dust collector. If high dust levels are encountered, use an appropriate NIOSH-designed dust mask. Avoid dust contact with eyes and skin. Wash thoroughly after handling.

**Disposal**  
Dispose in accordance with all applicable regulations.

** *Section 4 - FIRST-AID MEASURES* **

**Description of Necessary Measures**

**Inhalation**
If breathing becomes difficult, remove victim to fresh air. If necessary, use artificial respiration to support vital functions. Seek medical attention immediately.

**Skin Contact**
Wash skin thoroughly after handling. Seek medical attention if irritation develops and persists.

**Eye Contact**
If wood dust enters the eyes, open eyes while under gentle running water for 15 minutes. Seek medical attention if irritation or blurred vision continues.

**Ingestion**
If wood dust is swallowed, call physician or poison control center for most current information. If professional advice is not available, do not induce vomiting. Never induce vomiting or give diluents (milk or water) to someone who is unconscious, having convulsions, or who cannot swallow. Seek medical advice. Take a copy of the label and/or SDS with the victim to the health professional.

**Most Important Symptoms/Effects**

**Acute**
eye irritation, skin irritation, respiratory tract irritation.

**Delayed**
cancer hazard, lung damage.

**Indication of Immediate Medical Attention and Special Treatment Needed, If Needed**
Treat symptomatically and supportively.

** *Section 5 - FIRE-FIGHTING MEASURES* **

**Suitable Extinguishing Media**
carbon dioxide, regular dry chemical, regular foam, water spray

**Unsuitable Extinguishing Media**
Do not use forced stream as this could cause fire to spread

**Special Hazards Arising from the chemical**
Wood dust is a strong to severe explosion hazard if a dust cloud contacts an ignition source. Depending on the moisture content and particulate diameter, wood dust may explode in the presence of an ignition source. An airborne concentration of 40 grams of dust per cubic meter is often used as the LEL for wood dusts.

**Special Protective Equipment and Precautions for Firefighters**
Incipient fire responders should wear eye protection. Structural firefighters must wear Self-Contained Breathing Apparatus and full protective equipment. Isolate materials not yet involved in the fire and protect personnel. Move containers from fire area if this can be done without risk; otherwise, cool with carefully applied water spray. If possible, prevent runoff water from entering storm drains, bodies of water, or other environmentally sensitive areas.
**Section 6 - ACCIDENTAL RELEASE MEASURES**

Personal Precautions, Protective Equipment and Emergency Procedures

Avoid actions that cause dust to become airborne. Avoid inhalation of dust and contact with skin. Wear appropriate personal protective equipment as described in Section 8. Cleanup using shovel, sweeping or vacuum. Avoid dry sweeping which creates dust. Apply water spray to prevent airborne dust. Scrape up wet material and place in appropriate container.

**Section 7 - HANDLING AND STORAGE**

Precautions for Safe Handling

Avoid dusty conditions and provide good ventilation. Avoid eye contact. Avoid repeated or prolonged contact with skin. Avoid prolonged or repeated breathing of wood dust in air.

Conditions for Safe Storage, including any Incompatibilities

Avoid contact with oxidizing agents and drying oils. Avoid open flame. Store and handle in accordance with all current regulations and standards.

**Section 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION**

Exposure Limits

Follow all applicable exposure limits. Minimize dust generation and accumulation.

Component Exposure Limits

Wood Dust

<table>
<thead>
<tr>
<th>ACGIH</th>
<th>1.0 mg/m3 Inhalable, 0.5 mg/m3 Inhalable Western Red Cedar</th>
</tr>
</thead>
<tbody>
<tr>
<td>OSHA</td>
<td>15 mg/m3 Total Dust, 5.0 mg/m3 Respirable fraction</td>
</tr>
</tbody>
</table>

Appropriate Engineering Controls

When creating wood dust, use with adequate ventilation to ensure exposure levels are maintained below the limits provided above. Use local exhaust ventilation to control airborne vapors.

Individual Protection Measures, such as Personal Protective Equipment

Eyes/Face Protection

Wear safety glasses as appropriate where contact is possible. If necessary, refer to US OSHA 29 CFR 1910.133 or appropriate Canadian Standards.

Skin Protection

Wear appropriate clothing to prevent skin contact (e.g. overalls).

Glove Recommendations

Wear gloves as appropriate to reduce skin contact.

Respiratory Protection

Maintain airborne contaminant concentrations below guidelines listed above, if applicable.

**Section 9 - PHYSICAL AND CHEMICAL PROPERTIES**
**Section 10 - STABILITY AND REACTIVITY**

Reactivity

None known.

Chemical Stability

Stable at normal temperatures and pressure.

Possibility of Hazardous Reactions

Hazardous polymerization will not occur.

Conditions to Avoid

Avoid heat, flames, sparks and other sources of ignition. Avoid contact with incompatible materials. Avoid generating dust. Avoid contact with molten material.

Incompatible Materials

Not available

Hazardous Decomposition

Combustion: Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

**Section 11 - TOXICOLOGICAL INFORMATION**

Acute Toxicity

No information available for the product. See component data.

Component Analysis

The components of this material have been reviewed in various sources and the following selected endpoints are published:

**Wood Dust**

Wood dust (softwood and hardwood) OSHA hazard rating = 3.3; moderately toxic with probable oral lethal dose to human being 0.5 – 5 g/kg (about 1 pound for a 150 pound person) Source: OSHA Regulated Hazardous Substances, Government Institutes, Inc.

Information on Likely Routes of Exposure

**Inhalation**

Causes respiratory tract irritation.

**Ingestion**

No information on significant adverse effects.

**Skin Contact**
Causes skin irritation.

Eye Contact
Causes eye irritation.

Immediate Effects
eye irritation, skin irritation, respiratory tract irritation.

Delayed Effects
cancer hazard

Medical Conditions Aggravated by Exposure
No data available.

Irritation/Corrosivity Data
Causes eye irritation, skin irritation, and respiratory tract irritation.

Respiratory Sensitization
No information available for the product.

Dermal Sensitization
No information available for the product.

Germ Cell Mutagenicity
No information available for the product.

Carcinogenicity
Component Carcinogenicity
Wood Dust
IARC: Group 1: Carcinogenic to humans; significant evidence of carcinogenicity
NTP: Carcinogenic
OSHA: Present

Reproductive Toxicity
No information available for the product.

Specific Target Organ Toxicity - Single Exposure
No target organs identified.

Specific Target Organ Toxicity - Repeated Exposure
No target organs identified

Aspiration Hazard
No data available.

**Section 12 - ECOLOGICAL INFORMATION**

Ecotoxicity
No information available for the product.

Persistence and Degradability
No information available for the product.

Bioaccumulation
No information available for the product.

Mobility
No information available for the product.

**Section 13 - DISPOSAL CONSIDERATIONS**

Disposal Methods
Dispose in accordance with all applicable regulations. Regulations vary. Consult local authorities before disposal.
Component Waste Numbers
The U.S. EPA has not published waste numbers for this product's components.

Disposal of Contaminated Packaging
Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations.

**Section 14 - TRANSPORT INFORMATION**

US DOT Information
Not regulated as a hazardous material.

TDG Information
No Classification assigned.

Marine Pollutant
No component(s) of this material is specifically listed in the IMDG Code as an identified marine pollutant.

**Section 15 - REGULATORY INFORMATION**

U.S. Federal Regulations

SARA Reporting Requirements: Wood dust is not subject to the reporting requirements of Sections 302, 304 and 313 of Title III of the Superfund Amendments and Reauthorization Act as follows:

SARA 311/312
Acute Health: Yes Chronic Health: Yes Fire: No Pressure: No Reactive: No

U.S. State Regulations
The following components appear on one or more of the following state hazardous substances lists:

<table>

</table>

Canadian Classification
This product has been classified in accordance with the criteria of the Controlled Products Regulations (CPR) and the SDS contains all of the information required by the CPR.

Canadian WHMIS Ingredient Disclosure List (IDL)
There are no components listed on the Ingredients Disclosure List.

Canada-WHMIS
This is not considered hazardous material under the Hazardous Products Act as defined by the Controlled Products Regulations. Labeling not required.

Chemical Inventory Listings
