**Section 1 - IDENTIFICATION**

**Material Name:** Man-made Vitreous Fiber Ceilings and Wall Panels #3  
**Chemical Family**  
Man-made vitreous fiber ceiling tile  
**Recommended Use**  
Acoustical ceiling tiles  
**Restrictions on Use**  
None known.

**Manufacturer Information**  
Armstrong World Industries  
2500 Columbia Ave.  
Lancaster, PA 17603  
In Canada:  
255 Montpellier Blvd.  
St. Laurent, Quebec  
Canada N4N 2G3  
Phone #: 877-276-7876  
Email: techline@armstrong.com  
Emergency #: 1-800-255-3924 (ChemTel)  
www.armstrongceilings.com

**Section 2 - HAZARD(S) IDENTIFICATION**

Classification in accordance with 29 CFR 1910.1200.  
Not classified as hazardous  
**GHS LABEL ELEMENTS**  
**Symbol(s)**  
None  
**Signal Word**  
None  
**Hazard Statement(s)**  
None
Precautionary Statement(s)
During the installation be certain that the work site is well ventilated and avoid breathing dust. Avoid contact with skin or eyes. Wear long-sleeve, loose fitting clothes, gloves and eye protection. Cut and trim with knife, razor or hand saw. Do not cut with power equipment unless either a dust collector is used on the equipment or local exhaust is used and a NIOSH approved respirator is worn to prevent overexposure to airborne silica. Exposures to respirable crystalline silica are not detected in industrial hygiene testing on workers installing acoustical ceiling panels for an 8 hour work day and are not expected during the normal use of this product; however, actual levels must be determined by workplace hygiene testing. Prolonged and repeated exposure to airborne free respirable crystalline silica can result in lung disease (i.e., silicosis) and/or lung cancer. Panels do not release respirable dust in their installed state and therefore do not present any known health hazards when installed and properly maintained.

Prevention
Do not breathe dust, mist, fumes or vapors. Do not handle until all safety precautions have been read and understood. Wash thoroughly after handling. Wear protective gloves/clothing and eye/face protection. Obtain special instructions before use. Use only outdoors or in a well-ventilated area.

Response
IF exposed or concerned: Get medical advice/attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before re-use. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Storage
Store in a well-ventilated place. Keep container tightly closed. Store locked up.

Disposal
Dispose in accordance with all applicable regulations.

* * *Section 4 - FIRST-AID MEASURES* * *

Description of Necessary Measures

Inhalation
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

Skin Contact
IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before re-use.
Eye Contact
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion
If a large amount is swallowed, get immediate medical attention.

Most Important Symptoms/Effects
Acute
eye irritation, skin irritation, respiratory tract irritation.

Delayed
cancer hazard, lung damage.

Indication of Immediate Medical Attention and Special Treatment Needed, If Needed
Treat symptomatically and supportively.

** **Section 5 - FIRE-FIGHTING MEASURES** **

Suitable Extinguishing Media
carbon dioxide, regular dry chemical, regular foam, water spray

Unsuitable Extinguishing Media
None known.

Special Hazards Arising from the chemical
Combustible dust. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons. Toxic fumes may be released in case of fire.

Hazardous Combustion Products
Combustion: Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

Fire Fighting Measures
Keep away from sources of ignition - No smoking. Avoid inhalation of material or combustion by-products. Move material from fire area if it can be done without risk. Use extinguishing agents appropriate for surrounding fire. Dike for later disposal. Stay upwind and keep out of low areas.

Special Protective Equipment and Precautions for Firefighters
Firefighters should wear full-face, self contained breathing apparatus and impervious protective clothing. Firefighters should avoid inhaling any combustion products.

** **Section 6 - ACCIDENTAL RELEASE MEASURES** **

Personal Precautions, Protective Equipment and Emergency Procedures
Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Wear appropriate personal protective equipment. Keep unnecessary people away, isolate hazard area and deny entry. Avoid contact with skin and eyes. Do not breathe dust. If respirable dusts are generated, respiratory protection may be needed. Collect spillage. In case of spillage, stop the flow of material and block any potential routes to water systems. Only personnel trained for the hazards of this material should perform clean up and disposal. Avoid release to the environment.
Methods and Materials for Containment and Cleaning Up
Keep out of water supplies, sewers and soil. In case of spillage, stop the flow of material and block any potential routes to water systems. Collect spilled material using mechanical equipment. Keep unnecessary people away, isolate hazard area and deny entry. Avoid dust generation and accumulation. Keep container tightly closed. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Use non-sparking tools and equipment.

* * *Section 7 - HANDLING AND STORAGE* * *

Precautions for Safe Handling
Do not handle until all safety precautions have been read and understood. Keep away from all ignition sources. Do not breathe dust. Use methods to minimize dust. Avoid contact with skin and eyes. Do not eat, drink, or smoke when using this product. Always wear recommended personal protective equipment. Wear personal protective clothing and equipment, see Section 8. Minimize dust generation and accumulation. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Take precautionary measures against static discharge. Dissipate static electricity during transfer by earthing (grounding and bonding) containers and equipment.

Conditions for Safe Storage, including any Incompatibilities
Store in a cool, dry place. Store in a well-ventilated place. Avoid contact with molten material. Keep separated from incompatible substances. Keep container tightly closed. Empty containers may contain product residue. Do not reuse empty containers without commercial cleaning or reconditioning. Store and handle in accordance with all current regulations and standards.

Incompatibilities: Not available

* * *Section 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION* * *

Exposure Limits
Follow all applicable exposure limits. Minimize dust generation and accumulation.
Component Exposure Limits

Titanium Dioxide (inbound) (13463-67-7)
  OSHA: 15 mg/m³ TWA; 5 mg/m³ TWA (respirable fraction)
  ACGIH: 10 mg/m³ TWA

Fiberglass (65997-17-3)
  ACGIH: 1 fiber/cm³ TWA (respirable fibers: length >5 µm, aspect ratio >=3:1, as determined by the membrane filter method at 400-450X magnification [4-mm objective], using phase-contrast illumination, related to Glass wool fiber)
  NIOSH: 3 fiber/cm³ TWA (fibers <= 3.5 µm in diameter and >= 10 µm in length); 5 mg/m³ TWA (total, related to Glass wool fiber)

Ground Calcium carbonate (1317-65-3)
  OSHA: 15 mg/m³ TWA (total dust); 5 mg/m³ TWA (respirable fraction)
  NIOSH: 10 mg/m³ TWA (total dust); 5 mg/m³ TWA (respirable dust)

Starch (9005-25-8)
  ACGIH: 10 mg/m³ TWA
  OSHA: 15 mg/m³ TWA (total dust); 5 mg/m³ TWA (respirable fraction)
  NIOSH: 10 mg/m³ TWA (total dust); 5 mg/m³ TWA (respirable dust)

Aluminium hydrous silicate: Kaolin clay (1332-58-7) & Titanium Dioxide (13463-67-7)
  ACGIH: 2 mg/m³ TWA (particulate matter containing no asbestos and <1% crystalline silica, respirable fraction)
  OSHA: 15 mg/m³ TWA (total dust); 5 mg/m³ TWA (respirable fraction)
  NIOSH: 10 mg/m³ TWA (total dust); 5 mg/m³ TWA (respirable dust)

Quartz (inbound) (14808-60-7)
  ACGIH: 0.025 mg/m³ TWA (respirable fraction)
  0.05 mg/m³ TWA (respirable dust)

Appropriate Engineering Controls

Ventilation equipment should be explosion-resistant if explosive concentrations of material are present. Provide local exhaust ventilation system. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of these product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment.

Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment).

Use only appropriately classified electrical equipment and powered industrial trucks.

Individual Protection Measures, such as Personal Protective Equipment

Eyes/Face Protection
  Wear splash resistant safety goggles with a faceshield.

Skin Protection
  Wear appropriate chemical resistant clothing.

Glove Recommendations
  Wear appropriate chemical resistant gloves.
Respiratory Protection
A NIOSH approved respirator with organic vapor cartridges and N95 filters may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits, or when symptoms have been observed that are indicative of overexposure.

**Section 10 - STABILITY AND REACTIVITY**

Reactivity
None known.

Chemical Stability
Stable at normal temperatures and pressure.

Possibility of Hazardous Reactions
Hazardous polymerization will not occur.

Conditions to Avoid
Avoid heat, flames, sparks and other sources of ignition. Avoid contact with incompatible materials. Avoid generating dust. Avoid contact with molten material.

Incompatible Materials
Not available

Hazardous Decomposition
Combustion: Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

**Section 11 - TOXICOLOGICAL INFORMATION**

Acute Toxicity
No information available for the product. See component data.

Component Analysis - LD50/LC50
The components of this material have been reviewed in various sources and the following selected endpoints are published:
Quartz(inbound) (14808-60-7)
Oral LD50 Rat 500 mg/kg
Carcinogenicity
Component Carcinogenicity
Fiberglass (65997-17-3)
  IARC: Not classifiable; Monograph 81 [2002]; Monograph 43 [1988] (Group 3 (not classifiable), related to Glass wool fiber)
  NTP: Not classifiable (non-respirable, non-biopersistent)
  OSHA: Not classified (related to Glass wool fiber)

Starch (9005-25-8)
  ACGIH: A4 - Not Classifiable as a Human Carcinogen

Aluminium hydrous silicate: Kaolin clay (1332-58-7)
  DFG: Category 3B (could be carcinogenic for man)

Quartz (inbound) (14808-60-7)
  IARC: Monograph 100C [2012]; Monograph 68 [1997] (Group 1 (carcinogenic to humans; respirable only))
  NTP: Known Human Carcinogen (respirable size)
  OSHA: Present (respirable size)

Titanium Dioxide (inbound) (13463-67-7)
  IARC: Monograph 47 [1989] (Group 2B (possibly carcinogenic to humans))
  OSHA: Not classified
  IARC: Not classified

Reproductive Toxicity
  No information available for the product.

Specific Target Organ Toxicity - Single Exposure
  No target organs identified.

Specific Target Organ Toxicity - Repeated Exposure
  Lung damage

Aspiration Hazard
  No data available.

**Section 12 - ECOLOGICAL INFORMATION**

Ecotoxicity
  No information available for the product.

Persistence and Degradability
  No information available for the product.

Bioaccumulation
  No information available for the product.

Mobility
  No information available for the product.

**Section 13 - DISPOSAL CONSIDERATIONS**

Disposal Methods
  Dispose in accordance with all applicable regulations. Regulations vary. Consult local authorities before disposal.

Component Waste Numbers
  The U.S. EPA has not published waste numbers for this product's components.
Disposal of Contaminated Packaging
Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations.

**Section 14 - TRANSPORT INFORMATION**

US DOT Information
Not regulated as a hazardous material.

TDG Information
No Classification assigned.

Marine Pollutant
No component(s) of this material is specifically listed in the IMDG Code as an identified marine pollutant.

**Section 15 - REGULATORY INFORMATION**

U.S. Federal Regulations
This material contains one or more of the following chemicals required to be identified under SARA Sections 302/304 (40 CFR 355 Appendix A), SARA Section 313 (40 CFR 372.65), CERCLA (40 CFR 302.4), TSCA 12(b), and/or require an OSHA process safety plan.

SARA 311/312
Acute Health: Yes  Chronic Health: Yes  Fire: No  Pressure: No  Reactive: No

U.S. State Regulations
