</table>

**Fire Performance**

Infusions® accent canopies have been tested according to NFPA 286 and are equivalent to Class A Interior Finish as defined by the International Building Code. Designers and Installers are advised to consult a fire protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present. Contact TechLine at 1 877 276-7876 for specific US and Canadian fire performance data.

**Design Considerations**

Do not cut holes in or drill through Infusions® accent canopies. Doing so may cause the panel to bend in an irregular fashion. Infusions panels are not approved for exterior application.

**Installation Considerations**

Do not allow the edges of the shapes to get wet or be exposed to moisture. Infusions® accent canopies can be damaged by exposure to high temperatures. The temperature of the shapes should not be permitted to exceed 100°F.

Follow the guidelines below for minimum distance from standard light sources.

<table>
<thead>
<tr>
<th>LAMP TYPE</th>

Additional light transmission information is available at armstrongceilings.com/infusions

Infusions® playful accent canopies come in a variety of translucent textures and finishes to create custom looks with standard kits.

**KEY SELECTION ATTRIBUTES**

- Mix and match sizes and shapes to define spaces
- Standard components allow you to create custom configurations
- Strong, impact-resistant edges
- Installation is fast and simple – no special tools required

**24” X 60”, 24” X 72” COLORS (partial list)**

For all colors see pg. 85

Due to printing limitations, shade may vary from actual product.

**Patterns**

- Spin Copper (TSC)
- Natural Linen (TNL)
- Crystalline Silverado (TSV)
- Crystalline Sky (TSY)
- White Circlets (TWC)
- Red Arbor (TRA)

**Solids**

- Inspiration Ice (TNC)
- Sage Happiness (TSH)
- Sheer Iris (TSI)
- Red Fire (TRF)

**Key Select Attributes**

- 8”, 16”, 30” hanging kits; dual canopy kits
- Side-by-Side (two canopies with flush, 1/2”, or 3” spacing)
- End-to-End (five canopies)
- Wall Attachment Anchors canopies side-by-side or linking canopies to wall

**Use the assembled canopy weights provided in this table to select mounting hardware that will meet this requirement.**
