INFUSIONS® Panels and Sheets

Lay-in
smooth texture

KEY SELECTION ATTRIBUTES

- Dimensions – Splash, Large, and Small Beads create a 3D look with a unique honeycomb core
- Coordinate with Armstrong® Infusions™ Walls and Partitions, Infusions® Blades™ vertical elements, Infusions Shapes and Canopies, SoundScapes® Shapes panels
- Lay-in panels install quickly and easily in standard 15/16" Prelude® XL® or 9/16" Suprafine® XL® suspension system
- Infusions ceiling systems offer the industry’s highest fire performance; panels meet both the Class A and IBC drop-out requirements for fire performance (drop-out tested to withstand 200º temperatures for 30 minutes)
- Can be used in Formations™ Accent Clouds
- 48” x 72” Polycarbonate and 48” x 96” PETG sheets available for use on other areas of a project like desk or bar fronts, dividers or wall art that must coordinate with Armstrong® Infusions® products

DETAIL

COLOR SELECTION – SOLIDS  Due to printing limitations, shade may vary from actual product.

- Cultured Pearl (TCP)
- Inspiration Ice (TMC)
- Calm Water (TGW)
- Natural Faith (TNP)
- Loyalty Latte (TLL)
- Caribbean Renewal (TAR)
- Sage Happiness (TSH)
- Peace Blue (TPB)
- Sheer Iris (TSI)
- Blueberry Bliss (TBB)
- Sedona Spirit (TSS)
- Red Fire (TRF)

SoundScapes® Coordinating Colors

- Refined Kiwi (TRK)
- Refined Reef (TRR)
- Refined Lagoon (TRL)
- Refined Plum (TRP)
- Refined Tangerine (TRT)
- Refined Black (TRB)

COLOR SELECTION – PATTERNS  Due to printing limitations, shade may vary from actual product.

Goldtones

- Spun Copper (TSC)
- Crushed Copper (TCC)

Tones-on-tones

- White Circlets (TWC)
- Silver Orbit (TSR)
- Indigo Surf (TNS)

Linens

- Natural Linen (TNL)*
- Blue Linen (TBL)*

Crystallines

- Crystalline Silverado (TSV)
- Crystalline Focus (TCR)
- Crystalline Sky (TSC)

Arbors

- Clear Arbor (TCA)
- Blue Arbor (TBA)
- Red Arbor (TRA)

COLOR SELECTION – DIMENSIONS PATTERNS†  Due to printing limitations, shade may vary from actual product.

- Splash Reef (FZTRR)
- Splash Reef (FZTRR)
- Splash Lagoon (FZTRL)
- Splash Plum (FZTRP)
- Splash Tangerine (FZTRT)

- Beads Large Kiwi (FLTRK)
- Beads Large Reef (FLTRR)
- Beads Large Lagoon (FLTRL)
- Beads Large Plum (FLTRP)
- Beads Large Tangerine (FLTRT)

- Beads Small Kiwi (FSTTRK)
- Beads Small Reef (FSTTRR)
- Beads Small Lagoon (FSTTRL)
- Beads Small Plum (FSTTRP)
- Beads Small Tangerine (FSTTRT)

NOTES: Dimensions patterns are only available as 12" x 48" and 24" x 24" lay-in ceiling panels. Direction of linear patterns may change between panel sizes.

* Color may vary panel-to-panel

Polycarbonate (Dimensions panels – PETG and polycarbonate)
Surface Finish
Smooth
Fire Performance
Infusions® panels have been tested according to NFPA 286 and are equivalent to Class A interior finish as defined by the International Building Code.
Designers and Installers are advised to consult a fire protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present.
Contact TechLine at 1 877 276-7876 for specific US and Canadian fire performance data.

Installation Considerations
Do not allow panel edges to get wet. Panels may be cut for borders, perimeter treatments, penetrations, and cutouts. For penetrations such as sprinklers, use an escutcheon plate to hide any rough cut edges. Any fixtures used in or adjacent to field-cut Infusions panels must be independently supported. There is potential for limited natural deflection of panels. See LA-297176 at armstrongceilings.com/infusions for cutting recommendations.

Panels can be damaged by exposure to high temperatures. Panel temperature should not be permitted to exceed 100°F. Follow these guidelines for minimum distance from standard light sources.
