SOUNDSCAPES® Blades™
Linear Acoustical Panels
fine texture

Acoustical vertical panels reduce reverberation time in your space, now with three ways to install on ceilings and walls.

KEY SELECTION ATTRIBUTES
- Three installation options for maximum ceiling and wall design flexibility
  - From standard suspension system
  - From individual cable suspension
  - Direct-attach method using Axiom® Wall Molding
- Excellent acoustical absorption — 1.38 Sabins/SF²
- Twenty vertical panel sizes and shapes
- Linear, upscale visual
- Seismic-tested
- Integrated hardware
- Custom panel options available
- Add scrim to top edge as a premium option

COLORS
Due to printing limitations, shade may vary from actual product.

For premium and custom capabilities, contact TechLine at 877 276-7876. Coordinating Calla® and Lyra® DESIGNflex™ colors available!

LAYOUT OPTIONS

Install to Standard 15/16” Suspension System

Vertical Panel 8’ Wavelength Concave 7240 – 7.5” x 46” x 2”
Vertical Panel 8’ Wavelength Convex 7241 – 10.5” x 46” x 2”
Vertical Panel 8’ Wavelength Wave 7244 – 10.5” x 94” x 2”

Direct-Attach Method using Axiom® Wall Molding

Vertical Panel 8’ Wavelength Concave 7240 – 7.5” x 46” x 2”

Vertical Panel Rectangular 7190 – 5” x 46” x 2”
Vertical Panel Rectangular 7191 – 5” x 94” x 2”

CUSTOM PANEL DESIGN EXAMPLES

New .125 Min Radius for all 90° Inside Corners

.125 Min Radius for all 90° Inside Corners

1.0 Min Radius anywhere other than 90° Inside Corners

* When specifying or ordering items with a color, add the two-letter suffix to the end of the item number (e.g. 7301BL).

Design Considerations
SoundScapes® Blades™ panels maintain a natural bow that may be noticeable when installed 2° or less apart. Deflection up to 1/8° has been documented in some cases. Special care in installation and handling must be taken with color panels to avoid surface damage to the paint finish. Custom colors are available. SoundScapes Blades panels can be ordered with scrim on top edge as a premium.

Seismic Restraint
SoundScapes® Blades™ are approved for all seismic areas when installed per the seismic guidelines in the Armstrong Ceilings installation instructions.

Recommended Suspension Systems
SoundScapes Blades panels are pre-assembled with metal hanging clips in the top of the panels. See Installation Instructions BPLA-297844 for installation details.

Warranty
Details at armstrongceilings.com

PHYSICAL DATA

Material
2" thick fiberglass with DuraBrite® scrim on face and sides.

Surface Finish
DuraBrite scrim with factory-applied paint on face and sides. Standard White has energy-saving, high light-reflective finish (LR 0.90). Top of panel is unfinished with embedded hanging clips.

Fire Performance
SoundScapes® Blades™ panel material is ASTM E84 Class A, Flame Spread Rating 25 or under and Smoke Developed 50 or less.

CAN/ULC S102 surface burning characteristics. Flame Spread Rating 25 or less. Smoke Developed Classification 50 or less.

SoundScapes Blades panels, as with other architectural features located in the ceiling plane, may obstruct or skew the existing or planned fire sprinkler water distribution pattern, or possibly delay the activation of the fire sprinkler or fire detection system. Consult a fire protection engineer, NFPA 13, and local codes for guidance on the proper installation techniques where fire detection or suppression systems are present.

Acoustical Performance
1.38 Sabins per square foot or 64% more sound absorption than the same square footage of NRC 0.90 continuous ceilings. Blades™ colored panels have slightly reduced acoustical performance.

Fire Performance
Installation per the seismic guidelines in the Armstrong Ceilings installation instructions.

Recommended Suspension Systems
SoundScapes Blades panels are pre-assembled with metal hanging clips in the top of the panels. See Installation Instructions BPLA-297844 for installation details.
