SUSPENSION SYSTEM

15/16" Prelude® XL®

PHYSICAL DATA

MATERIALS

FSC®-certified solid Poplar (yellow or hybrid) (RA-COC-003601)

Surface Finish

Clear or tinted semigloss coating

Fire Performance

Solid Poplar Hardwood – Class C ASTM E84 surface burning characteristics, Flame Spread Index 200 or less, Smoke Developed Index 450 or less.

WOODWORKS® Open Cell panels, as with other architectural features located at the ceiling, may obstruct or skew the planned fire sprinkler water distribution pattern, or possibly delay or accelerate the activation of the sprinkler or fire detection systems by channeling heat from a fire either toward or away from the device.

Designers and installers are advised to consult a fire-protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present. For more information, visit armstrongceilings.com/woodworks

Application Considerations

Variation among panels may occur due to the natural characteristics of the wood and grain.

Design Considerations

It is very important that WoodWorks panels are climatized prior to installation. Relative humidity between 25% and 55%, and temperatures between 50°F and 86°F, must be maintained. Exposed, unpainted back of Axiom® trim may be visible when using higher trims on full-size panel.

Installation Consideration

Do not cut panels.

Leed®

WoodWorks Open Cell panels have been engineered, tested, and approved for application in all seismic areas when installed per Armstrong Ceilings installation instructions.

Warranty

Details at armstrongceilings.com

Weight

6623, 6626 – 1.0 lbs/SF
6624, 6625 – 0.6 lbs/SF
6622, 6625 – 0.5 lbs/SF

BULK PACKAGED

Armstrong Ceilings installation instructions.
