WOODWORKS® Grille
Tegular

KEY SELECTION ATTRIBUTES
• Get total noise control and design flexibility with Total Acoustics® ceiling panels: NRC + DAC = Total Acoustics® performance
• Painted white finish for even more design flexibility
• Vertical slats are deeper than they are wide creating a more open feel
• Horizontal slats are wider than they are deep creating a warm, more solid look
• 24” x 24” and 24” x 48” sizes available in vertical and horizontal slat designs
• FSC® and Rainforest Alliance® Certification available upon request
• Panels are designed so the suspension system virtually disappears
• Tegular panels with backers easily install on standard suspension system
• Create continuous looks and clouds with Axiom® or solid wood trim
• Panels are downward accessible without the use of clips

Now get Total Acoustics® performance with WoodWorks® Grille Tegular horizontal slats – excellent noise reduction and sound blocking in one system.

FINISH SELECTION
Due to printing limitations, shade may vary from actual product.

Grille White (GWH)
Grille Maple (GMP)
Grille Light Cherry (GLC)
Grille Dark Cherry (GDC)
Grille Walnut (GWN)
Custom Finishes Available

TRIM AND ACOUSTICAL INFILL PANELS

Trim and infill panels available. See Pgs. 252-253 in this catalog or visit armstrongceilings.com/woodworks

SUSPENSION SYSTEM

15/16" | Prelude® XL® (Black recommended), 360° Painted with 4" cross tee rout holes at 12" |
9/16" | Suprafine® XL® 9/16" Exposed Tee (Black recommended) |

Physical Data

Material
Solid Poplar (yellow or hybrid) (RA-COC-0036G01)

Surface Finish
Clear or tinted semigloss coating on all finishes except Grille White (GWH). Grille White (GWH) has a lacquer finish.

Fire Performance
Solid Poplar Hardwood Slats and Backers – ASTM E84 surface burning characteristics. Flame Spread Index 200 or less. Smoke Developed Index 450 or less.

Fire plane will vary between species. Class A intumescent treatment is available for all finishes except Grille White (GWH). Results will vary on a project-by-project basis. Contact TechLine at 1 877 276 7876 for details.

WoodWorks® Grille, as with other architectural features located at the ceiling, may obstruct or skew the planned fire sprinkler water distribution pattern, or possibly delay or accelerate the activation of the sprinkler or fire detection systems by channeling heat from a fire either toward or away from the device. Designers and installers are advised to consult a fire protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present. For more fire performance information, visit armstrongceilings.com/grille

Acoustics Considerations
NRC-tested using white panels. Painted panels may experience a slight reduction in NRC due to color painting processes.

Application Considerations
Variation among panels may occur due to the natural characteristics of the wood and grain.

For LEED contribution contact TechLine at 1 877 276 7876.
