**PHYSICAL DATA**

**Material**

FSC®-certified fire-retardant medium-density fiberboard with face-cut veneers (RA-COC-003601). For more information about FSC®-certified products, or to view our FSC®-certification letter, visit armstrongceilings.com/woodworksfsc

**Surface Finish**

Clear or tinted semigloss coating

**Fire Performance**

ASTM E84 surface burning characteristics. Flame Spread Index 25 or less. Smoke Developed Index 50 or less. CANULC S102 surface burning characteristics. Flame Spread Rating 25 or less. Smoke Developed Classification 50 or less.

**ATM E1264 Classification**

Composite – Fire Class A

**Application Considerations**

Variation among panels may occur due to the natural characteristics of the wood and grain. It is very important that WoodWorks® panels are climatized prior to installation. Relative humidity between 25% and 55%, and temperatures between 50°F and 86°F, must be maintained throughout the life of the product.

**Specification Consideration**

Attention: For FSC certified wood products to maintain their CoC certification, products must be sold to a CoC-certified manufacturer. Failure to do so breaks the CoC.

**Seismic Restraint**

WoodWorks Channeled wood planks have been engineered, tested, and approved in all seismic areas when installed per Armstrong Ceilings installation instructions.
