**Physic Data**

**Material**
Wet-formed mineral fiber with acoustically transparent membrane

**Surface Finish**
Acoustically transparent membrane with factory-applied latex paint

**Fire Performance**
ASTM E84 and CAI/ULC S102 surface burning characteristics. Flame Spread Index 25 or less. Class A: Smoke Developed Index 50 or less (UL labeled).

**Design Considerations**
Combining materials with different run dates may result in shade variations. Order attic stock for any anticipated future needs.

ASTM E1264 Classification
Type IV, Form 2, Pattern E, Fire Class A

**Humidity/Sag Resistance**
Humiguard® Plus ceiling panels are recommended for areas subject to high humidity, up to, but not including, standing water and outdoor applications.

**Mold/Mildew Protection**
Ceiling panels with BioBlock® performance resist the growth of mold and mildew.

**VOC Emissions**
GREENGUARD Gold Certified

**High Recycled Content**
Classified as containing greater than 50% total recycled content. Total recycled content based on product composition of post-consumer and pre-consumer (post-industrial) recycled content per FTC guidelines.
