Translucent ceiling panels are available in multiple sizes, colors, and patterns.

**KEY SELECTION ATTRIBUTES**

- Coordinate with Armstrong® Infusions™ Walls and Partitions, Infusions® Blades vertical elements, Infusions Shapes and Canopies, SoundScapes® Shapes panels and Blades vertical elements, Create!™ ceiling panels, or other interior finishes
- 18” x 18” Infusions Lay-in infill panels available for Metaphors® Coffers; for details, see page 403-404
- Lay-in panels install quickly and easily in standard 15/16” Prelude® XL® or 9/16” Suprafine® XL® suspension system
- Infusions ceiling systems offer the industry’s highest fire performance; panels meet both the Class A and BC drop-out requirements for fire performance (drop-out tested to withstand 200º temperatures for 30 minutes)
- Can be used in Formations™ Accent Clouds
- 48” x 72” Polycarbonate and 48” x 96” PETG sheets available for use on other areas of a project like desk or bar fronts, dividers or wall art that must coordinate with Armstrong® Infusions® products

**DETAILS**

1. Infusions® Lay-in
2. Infusions® Lay-in with 15/16” Prelude® suspension system

COLOR SELECTION – SOLIDS  Due to printing limitations, shade may vary from actual product.

- Cultured Pearl (TCP)
- Inspiration Ice (TNC)
- Calm Water (TCW)
- Natural Faith (TNF)
- Loyalty Latte (TLL)
- Caribbean Renewal (TAR)
- Sage Happiness (TSH)
- Peace Blue (TPB)
- Sheer Iris (TSI)
- Blueberry Bliss (TBB)
- Red Fire (TRF)

SoundScapes® panels – Coordinating Colors

- Refined Kiwi (TRK)
- Refined Reef (TRR)
- Refined Lagoon (TRL)
- Refined Plum (TRP)
- Refined Tangerine (TRT)
- Refined Black (TRB)

</tbody>
</table>

**Performance**

- **Fire Rating**: Infusions® panels have been tested according to NFPA 286 and are equivalent to Class A interior finish as defined by the International Building Code. Designers and Installers are advised to consult a fire protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present.

**Design Considerations**

- **Installation Considerations**: Do not allow panel edges to get wet. Panels may be cut for borders, perimeter treatments, penetrations, and cutouts. For penetrations such as sprinklers, use an escutcheon plate to hide any rough cut edges. Any fixtures used in or adjacent to field-cut Infusions panels must be independently supported. There is potential for limited natural deflection of panels. See LA-297176 at armstrongceilings.com/infusions for cutting recommendations.

- **Panels can be damaged by exposure to high temperatures. Panel temperature should not be permitted to exceed 100°F.**

Additional light transmission information is available at armstrongceilings.com/infusions

**SUSPENSION SYSTEMS**

**Physical Data**

- **Materials**: Polycarbonate (Dimensions panels – PETG and polycarbonate)
- **Surface Finish**: Smooth
- **Fire Performance**: Infusions® panels have passed according to NFPA 286 and are equivalent to Class A interior finish as defined by the International Building Code.

- **Design Considerations**: Direction of linear patterns may change between panel sizes. Infusions panels are not approved for exterior application. Natural Linen and Blue Linen colors may vary panel to panel.
