SOUNDSCAPES® Shapes
Acoustical Clouds

KEY SELECTION ATTRIBUTES

• Now available in triangle, trapezoid, and parallelogram shapes
• 360° panel finishing capability available
• Aesthetically define spaces with excellent acoustical performance-up to 1.18 Sabins/SF
• High light reflectance for White panels – 0.90
• Quick to install from the deck, drywall, suspension system, or on a wall in adjustable heights and angles
• Grouping Frame Kit provides superior rigidity, perfect alignment, minimizes hanging points, ensures consistent panel spacing, and is engineered for use in DEF Seismic zones
• Adjustable to various heights and angles
• Excellent panel construction and innovative, pre-engineered grouping frames take the thinking and risk out of installation

Deliver acoustics in playful installations with angles, layers, shapes, sizes, and colors.

COLORS Due to printing limitations, shade may vary from actual product.

* NOTE: Add 2-letter color suffix when specifying or ordering (e.g. 5440 W H for square panel in White). Concealed hardware with 360° finishing available on all shapes except Trigon. When grouping 90-degree shapes with the 5453D090 Frame Alignment Kit, you cannot combine with 60-degree shapes.
* Item 5449 not recommended for installation with grouping frame; independent support recommended.

## ACCESSORY KITS
Applications always require more than one kit.

<table>
<thead>
<tr>
<th>Item No.</th>
<th>Description</th>
<th>Kit Contents</th>
</tr>
</thead>
</table>
| 5450     | Deck Hanging Kit  
Allows for suspending individual shapes or grouping frames from deck and bottom end adjustment of height at panel or frame level. | (2) gripper structure anchors  
(2) gripper structure caps  
(2) 8’ aircraft cables  
(2) bottom end cable adjusters  
(2) nuts with washers |
| 7121     | Angled Hanging Kit (60° maximum angle)  
For use when hanging panels at different angles. Extends from the end of Deck Hanging Kit (5450). | (2) angled hanging cables |
| 7006     | Escutcheon Kit  
Used when hanging panels below an existing ceiling. | (2) collars with setscrews  
(2) 2” escutcheons |
| 5451     | Grouping Frames Kit  
Suspension frames used to group panels together. | (4) suspension frames, 12’ long, Black (BL) or White (WH) |
| 5452     | Frame Splice Kit  
Connects group suspension frames for longer runs (> 12 feet). | (2) group frame connectors, 10” long, Black (BL) or White (WH)  
(4) bolts with washers  
(4) nuts |
| 5453D060 | Frame Alignment Kit – 60 degrees  
For use with group suspension frames and 60-degree shapes only. Clear finish to coordinate with either black or white suspension frames. | (4) frame alignment spacers, clear plastic  
(4) bolts  
(4) nuts with washers |
| 5453D090 | Frame Alignment Kit – 90 degrees  
For use with group suspension frames and 90-degree shapes only. Clear finish to coordinate with either black or white suspension frames. | |
| 5454     | Panel Hook Kit  
For use with grouping frames  
All panels require 1 kit. Item 5449 (Large Rectangle) and item 7101201 (60 degree Trapezoid) require two kits. | (2) 4-1/2” high panel hooks, Black (BL) or White (WH)  
(2) 3-1/2” high panel hooks, Black (BL) or White (WH)  
(8) bolts |
| 5629     | Multi-plane Hanging Kits  
For use when hanging panels at heights below  
Panel Hook Kit (5454). | 5629 1” Drop Hook Kit  
(2) 4-1/2” hooks  
(2) 5-1/2” hooks  
(8) screws  
5630 2” Drop Hook Kit  
(2) 5-1/2” hooks  
(2) 6-1/2” hooks  
(8) screws  
5631 3” Drop Hook Kit  
(2) 5-1/2” hooks  
(2) 7-1/2” hooks  
(8) screws |
| 5455     | Drywall Ceiling Hanging Kit  
For individual panel attachment to drywall. | (3) drywall clip assemblies  
(2) shoulder bolts |
| 5588     | Wall Hanging Kit  
For individual panel attachment to a wall. | (4) clip assemblies  
(4) shoulder bolts |
| 5632     | Grid Hook Kit  
For hanging individual panels from a standard suspension system. | (4) hooks  
(8) screws |

---

**NOTE:** Accessory kit hardware is attached to panels via the metal extrusion or corner brackets on the back of each panel.  
The diagram on the right shows the location of extrusions and corner brackets in the back of a nominal 4’ x 4’ panel. See installation instructions BPLA-297302 for more details.  
If you need assistance identifying what and how many accessory kits are needed for your project, please contact TechLine customer support at 1 877 276-7876.  
* Indicate desired color using two-digit color code when ordering: BL = Black; WH = White

PHYSICAL DATA

Material
7/8” thick fiberglass with DuraBrite® scrim on face and sides or custom 1-3/4” thick fiberglass with DuraBrite scrim on all sides (360º finishing). To order custom panels, contact TechLine at 1 877 276-7876.

Surface Finish
DuraBrite scrim with factory-applied paint on face and sides. Standard White has energy-saving, high light-reflective finish (LR 0.90). Back of panel is unfinished with embedded metal extrusions.

Fire Performance
SoundScapes® Shapes panel material is ASTM E84 Class A: Flame Spread 25 or under and Smoke Developed 50 or less.
CAN/ULC S102 surface burning characteristics. Flame Spread Rating 25 or less. Smoke Developed Classification 50 or less.

SoundScapes Shapes acoustical clouds, as with other architectural features located in the ceiling plane, may obstruct or skew the existing or planned fire sprinkler water distribution pattern, or possibly delay the activation of the fire sprinkler or fire detection system. Consult a fire protection engineer, NFPA 13, and local codes for guidance on the proper installation techniques where fire detection or suppression systems are present.

ASTM E1264 Classification
Type X, Form 2, Pattern E

High Recycled Content
Contains greater than 50% total recycled content. Total recycled content based on product composition of post-consumer and pre-consumer (post-industrial) recycled content per FTC guidelines.

Acoustical Performance
Standard Shapes – 1.18 Sabins/SF; 360º Finished Shapes – 1.47 Sabins/SF; color shapes have slightly reduced acoustical performance.

Design Considerations
SoundScapes Shapes acoustical clouds maintain a natural sag that may be noticeable when installed 8” or less apart. Deflection up to 1/8” has been documented in some cases. SoundScapes Shapes available with 360º finishing for use in areas where panel back is exposed (can only be installed with included individual suspension).

Seismic Restraint
Refer to ASCE 7-10, Section 13.5 Architectural Components for seismic requirements. Section 13.5, Item 2 refers to 13.2.3 Consequential Damage.

Suspension Systems
SoundScapes Shapes acoustical clouds are pre-assembled with metal extrusions in the back of the panels. Standard accessory kits facilitate quick and easy installation from the deck, through a ceiling, or directly attached to drywall. See Installation Instructions BPLA-297302 for installation details.
