Metallaire™ Backsplash and Wall Applications

Metallaire™ ceiling tiles are not only beautiful in detail and form, but functional as well when used as a backsplash or on an entire wall. 18.5" x 48.5" backsplash panels are available in a stainless steel finish in the 5 styles below. Stainless steel is the best finish for a backsplash. However, standard 24" x 48" panels can also be used in chrome, copper, brass, lacquered steel and white.

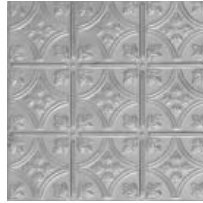

PATTERNS:

INSTALLATION

Use adhesive to attach the panels to the wall. Use just enough cone head nails to secure the panels to the wall while the adhesive sets up. (Do not remove nails.)

Note: Armstrong® does not guarantee the performance of adhesive products, either alone or in conjunction with Armstrong products.

Visit www.armstrong.com for a ceiling materials estimator, installation instructions, videos, and more.

NOTE: Noise reduction coefficient (NRC), ceiling attenuation class (CAC), light reflectance (LR) and flame spread ratings are expressed according to ASTM E 1264 requirements.
