Inspiring Great Spaces™

Armstrong®

Suprafine® Ceiling Suspension System

Unlike any tee grid system in the residential ceiling market, the Armstrong® Suprafine® system is the grid with less grid — eliminating half the visual surface to give you the look you want. Choose from a variety of stylish ceiling panels all with tegular edge details, including Sahara,™ classic Single Raised Panel, Tincraft™ Squares and Brightex with Airguard.

INSTALLATION

1 Install wall moldings

2 Suspend main beams with hanger wire

3 Install cross tees

4 Install ceiling panels
